REPORT ON REVIEW OF INTERIM CONDENSED CONSOLIDATED FINANCIAL INFORMATION TO THE BOARD OF DIRECTORS OF SOKOUK HOLDING COMPANY K.S.C.P.

Report on the Interim Condensed Consolidated Financial Information

Introduction

We have reviewed the accompanying interim condensed consolidated statement of financial position of Sokouk Holding Company K.S.C.P. (the "Parent Company") and its subsidiaries (collectively, the "Group") as at 30 September 2026, and the related interim condensed consolidated statement of profit or loss, interim condensed consolidated statement of comprehensive income for the three-month and nine-month periods then ended, interim condensed consolidated statement of changes in equity and the interim condensed consolidated statement of cash flows for the nine-month period then ended. Management is responsible for the preparation and presentation of this interim condensed consolidated financial information in accordance with International Accounting Standard 34, Interim Financial Reporting ("IAS 34"). Our responsibility is to express a conclusion on this interim condensed consolidated financial information based on our review.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, *'Review of Interim Financial Information Performed by the Independent Auditor of the Entity'*. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial information is not prepared, in all material respects, in accordance with IAS 34.

Emphasis of Matter

We draw attention to Note 8 and 13 to the interim condensed consolidated financial information, which describes the uncertainties relating to the final outcome of an ongoing litigation claim. Our conclusion is not modified in respect of this matter.

REPORT ON REVIEW OF INTERIM CONDENSED CONSOLIDATED FINANCIAL INFORMATION TO THE BOARD OF DIRECTORS OF SOKOUK HOLDING COMPANY K.S.C.P. (continued)

Report on Other Legal and Regulatory Requirements

Furthermore, based on our review, the interim condensed consolidated financial information is in agreement with the books of account of the Parent Company. We further report that, to the best of our knowledge and belief, we have not become aware of any violations of the Companies Law No. 1 of 2016, as amended, and its executive regulations, as amended, or of the Parent Company's Memorandum of Incorporation and Articles of Association, as amended, during the nine-month period ended 30 September 2026 that might have had a material effect on the business of the Parent Company or on its financial position.

We further report that, during the course of our review, to the best of our knowledge and belief, we have not become aware of any violations of the provisions of Law No. 7 of 2010 concerning establishment of Capital Markets Authority "CMA" and organization of security activity and its executive regulations, as amended, during the nine-month period ended 30 September 2026 that might have had a material effect on the business of the Parent Company or on its financial position.

1 CORPORATE INFORMATION

The interim condensed consolidated financial information of Sokouk Holding Company K.S.C.P. (the "Parent Company") and its subsidiaries (collectively, the "Group") for the nine months period ended 30 September 2026 was authorised for issue in accordance with a resolution of the directors on 12 November 2026.

The consolidated financial statements of the Group for the year ended 31 December 2025 were approved by the shareholders at the annual general assembly meeting ("AGM") held on 26 March 2026. No dividends have been declared by the Parent Company.

The Parent Company is a public shareholding company incorporated and domiciled in the State of Kuwait and whose shares are publicly traded in Boursa Kuwait.

The Parent Company's head office is located at ITS building 3rd Floor, Mubarak Al-Kabeer Street, Sharq and its registered postal address is at P.O. Box 29110, Safat 13152 - State of Kuwait.

The Parent Company is a subsidiary of Aref Investment Group S.A.K. (Closed) (referred to hereunder as "Aref" or the "Ultimate Parent Company"), a Kuwaiti shareholding company incorporated and domiciled in the State of Kuwait.

The principal activities of the Parent Company as per its Memorandum of Incorporation are, as follows:

- Owning shares of Kuwaiti or foreign shareholding companies or units in Kuwaiti or foreign limited liability companies, or establishing, managing, financing and sponsoring such companies.
- Financing and sponsoring entities in which the Parent Company has an ownership interest of not less than 20% in such entities.
- Owning industrial rights such as patents, industrial trademarks, sponsoring foreign companies or any other related industrial rights and leasing such rights for the benefit of companies inside or outside State of Kuwait.
- Owning movable assets or real estates required to pursue the Parent Company's activities within the limits acceptable by law.
- Utilising available surplus funds by investing these funds in portfolios managed by specialised parties.

All activities are conducted in accordance with Islamic Sharī'a as approved by the Parent Company's Fatwa and Sharī'a Supervisory Board.

The interim condensed consolidated financial information includes the financial information of the Parent Company and the following material subsidiaries:

			% equity interest		
	Principal activities	***Country of incorporation***	***30 September 2026***	*31 December 2025*	*30 September 2025*
Gulf Real Estate Development House Company K.S.C. (Closed)	Real Estate	Kuwait	87.99%	87.99%	87.99%
Sokouk Real Estate Company K.S.C. (Closed) *	Real Estate	Kuwait	96.52%	96.52%	96.52%

* The remaining shares/units in the subsidiary are held by other related parties on behalf of the Parent Company. Therefore, the effective holding of the Parent Company in the subsidiary is 100%.

2 BASIS OF PREPARATION AND CHANGES TO THE GROUP'S ACCOUNTING POLICIES

2.1 Basis of preparation

The interim condensed consolidated financial information of the Group has been prepared in accordance with IAS 34 *'Interim Financial Reporting'*. The accounting policies used in the preparation of this interim condensed consolidated financial information are consistent with those used in the preparation of the annual consolidated financial statements for the year ended 31 December 2025.

The interim condensed consolidated financial information is presented in Kuwaiti Dinar ("KD"), which is also the Group's functional currency.

2 BASIS OF PREPARATION AND CHANGES TO THE GROUP'S ACCOUNTING POLICIES (continued)

2.1 Basis of preparation (continued)

The Group's management has made an assessment of the Group's ability to continue as a going concern and is satisfied that the Group has the necessary resources to continue in business for the foreseeable future. The Group's net current liability position relates to its Subsidiary's obligation towards Islamic finance payables for which assets under Property and equipment are pledged (Notes 6 and 8). The Group's management believe that in the case of a negative outcome on this legal dispute, the Group's loss would be limited to its net investment in the subsidiary in addition to the contingency described in Note 13. Further, the Group is considering probable settlement plans in relation to the legal dispute. Accordingly, the interim condensed consolidated financial information has been prepared on a going concern basis.

The Group has not early adopted any other standards, interpretations or amendments that have been issued but are not yet effective. Other amendments to IFRSs which are effective for annual periods beginning on or after 1 January 2026 did not have any impact on the accounting policies, financial position or performance of the Group.

The interim condensed consolidated financial information does not contain all information and disclosures required for annual consolidated financial statements prepared in accordance with International Financial Reporting Standards and should be read in conjunction with the Group's annual consolidated financial statements for the year ended 31 December 2025.

In addition, results for the period ended 30 September 2026 may not necessarily be indicative of the results that may be expected for the financial year ending 31 December 2026. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included.

2.2 New standards, interpretations and amendments adopted by the Group

The accounting policies adopted in the preparation of the interim condensed consolidated financial information are consistent with those followed in the preparation of the Group's annual consolidated financial statements for the year ended 31 December 2025, except for the adoption of new standards effective as of 1 January 2026. The Group has not early adopted any standard, interpretation or amendment that has been issued but is not yet effective.

Classification and Measurement of Financial Instruments (Amendments to IFRS 9 and IFRS 7)

In May 2024, the IASB issued Amendments to IFRS 9 and IFRS 7, Amendments to the Classification and Measurement of Financial Instruments (the Amendments). The Amendments include:

- Clarifications of the requirements for recognition and derecognition of financial assets and financial liabilities. In particular, a financial liability is derecognised on the 'settlement date' and an accounting policy choice is introduced (if specific conditions are met) to derecognise financial liabilities settled using an electronic payment system before the settlement date.
- Additional guidance on how the contractual cash flows for financial assets with environmental, social and corporate governance (ESG) and similar features should be assessed.
- Clarifications on what constitute 'non-recourse features' and what are the characteristics of contractually linked instruments.
- The introduction of disclosures for financial instruments with contingent features and additional disclosure requirements for equity instruments classified at fair value through other comprehensive income (OCI).

The amendments had no impact on the Group's interim condensed consolidated financial information.

Annual Improvements to IFRS Accounting Standards - Volume 11

In July 2024, the IASB issued nine narrow scope amendments as part of its periodic maintenance of IFRS accounting standards. The amendments include clarifications, simplifications, corrections or changes to improve consistency in IFRS 1 First-time Adoption of International Financial Reporting Standards, IFRS 7 Financial instruments: Disclosure and its accompanying Guidance on implementing IFRS 7, IFRS 9 Financial Instruments, IFRS 10 Consolidated Financial Statements and IAS 7 Statements of Cash Flows.

The amendments had no impact on the Group's interim condensed consolidated financial information.

3 EARNINGS PER SHARE (EPS)

Basic EPS is calculated by dividing the profit for the period attributable to ordinary equity holders of the Parent Company by the weighted average number of ordinary shares outstanding during the period. Diluted EPS is calculated by dividing the profit attributable to ordinary equity holders of the parent Company by the weighted average number of ordinary shares outstanding during the period plus the weighted average number of ordinary shares that would be issued on conversion of all the dilutive potential ordinary shares into ordinary shares. As there are no dilutive instruments outstanding, basic and diluted earnings per share are identical.

*During the period, pursuant to the resolution dated 25 May 2026 of the Advisory Board of its associate, The Zamzam 2013 JV is partial redemptions aggregating to KD 18,148,875 were approved for the venturers at 132 fils per unit. The Parent Company's share of the redemption amounted to KD 4,261,356.

The Group performed an impairment test for its investment in equity-accounted investees during the fourth quarter of the preceding annual reporting period, which concluded that no impairment losses were required. As the assessment was performed at the end of the last annual reporting period, and in the absence of any new indicators of impairment during the current interim reporting period, management believes that there are no triggering events that would necessitate an update to the impairment test in accordance with IAS 36 *'Impairment of Assets'*.

6 PROPERTY AND EQUIPMENT

Property and equipment with a carrying amount of KD 25,547,147 (31 December 2025: KD 25,820,030, 30 September 2025: KD 25,748,609) are subject to a first charge to secure the Group's Islamic finance payables (Note 8).

Impairment losses related to real estate property
As at 31 December 2025, the Group assessed whether there is an indication that land and building may be impaired through assessing factors such as significant external adverse changes including market, economic, technological or legal environment factors in which the Group operates or internal observable factors including failure to meet budgeted and forecasted earnings in the current and prior years; that may trigger indicators of impairment that will either impact the carrying value or the remaining useful life of land and building. The management has also considered certain additional factors such as maintenance status, market knowledge and historical transactions.

Based on management's assessment and the valuations performed at year-end by two independent real estate valuers with experience in the locations and category of the property being valued, no impairment indicators were noted at 31 December 2025. During the interim reporting period, the hospitality segment's results were adversely affected by lower occupancy following the geopolitical developments in the region. Management assessed whether this represents an indicator of impairment, considering the headroom between the recoverable amount determined by the year-end valuations and the carrying amount, and the expected recovery in performance. Based on this assessment, management concluded that the decline in performance does not have a significant impact on the recoverable amount, and no impairment loss is required at 30 September 2026.

8 ISLAMIC FINANCE PAYABLES

Secured Ijara contract	Kuwaiti Dinar	5.25%	**27,890,625**	26,145,000	25,869,375

The secured Ijara contract amounting to KD 27,890,625 (31 December 2025: KD 26,145,000 and 30 September 2025: KD 25,869,375) represents a finance lease agreement ("Ijara contract") entered into between Gulf Real Estate Development House Company ("Subsidiary") and a local financial institution ("lender") in respect of a hotel property located in the State of Kuwait ("leased property"). The lease matured on 30 June 2020 ("maturity date"). Ijara payables are secured by a first charge over the Group's leased property, with a carrying value of KD 25,547,147 at 30 September 2026 (31 December 2025: KD 25,820,030 and 30 September 2025: KD 25,748,609) (Note 6).

Due to COVID-19 pandemic and the consequent financial difficulties, the lender officially notified the Subsidiary in August 2020 to surrender the leased property. On 5 April 2021, the Subsidiary was subpoenaed by the court to evict and surrender the leased property following a claim lodged by the lender. On 17 November 2021 the Court of First Instance ruled in favour of the lender and ordered the Subsidiary to hand over the leased property. The Subsidiary decided to appeal against the decision before the Court of Appeal. On 20 June 2022, the higher court decided to suspend the case until the outcome of the below counter litigation filed by the Group to prove its claim on the right of ownership on the property.

On 4 July 2021, the lender filed another case against the Parent Company (in its capacity as a joint guarantor) and the Subsidiary requesting the court to refer the matter to experts to evaluate the ownership of the property and has also raised a demand for compensation for the period from the date of expiry of the contract. The matter has been referred to experts. The court received the experts report on 19 September 2022 and contravened on 23 October 2022 and decided to shift the case to a different department – Commercial Government department, which has decided to send the matters to their own set of experts. Further, on the same date, the Group filed a counter litigation to prove its claim on the right of ownership on the property. The court merged both cases and rendered a decision in favour of the Group on 25 December 2022. Furthermore, with respect to the joint guaranteed contract with the Parent Company towards the debt obligation, the Court of Appeal, ruled a final decision that the contract is void; accordingly, the Parent Company has no contractual obligation towards the Islamic finance payables. The Lender has appealed against the decision. On 15 April 2026, the court of cassation ruled to reject the appeal and ordered the appellants to pay the costs.

Furthermore, in 2024, the lender filed a new case against the Parent Company and the Subsidiary claiming the Islamic finance payables amounting to KD 21,000,000 with 5.25% profit. On 9 February 2025, the Court of First Instance dismissed the case. The lender filed an appeal against the decision. On 18 June 2025, the Court of Appeal suspended the appeals until the final adjudication of the related appeals pending before the Court of Cassation.

8 ISLAMIC FINANCE PAYABLES (continued)

On 22 July 2026, the Court of Appeal ruled in favour of the lender, overturning the earlier decision that had dismissed the original claim, and ordered the Subsidiary to pay KD 21,000,000 together with contractual profit at the rate of 5.25% per annum from 1 July 2020 until the date of full settlement. The Court further held the Parent Company (in its capacity as joint guarantor) jointly liable with the Subsidiary up to an amount of KD 1,500,000. In the same judgment, the Court rejected the connected appeal. On 20 September 2026, the Parent Company and the Subsidiary filed appeals against this judgment before the Court of Cassation. A hearing was held on 4 November 2026 and, as at the date of authorisation of this interim condensed consolidated financial information, no decision had been issued.

During the period, the Group has accrued an additional KD 918,750 finance costs representing the difference between previously accrued financing costs and the amount determined by the judgment.

Finance costs continue to be accrued by the Group since the expiry of the contract on 30 June 2020 in order to provide any such contingency.

10 SEGMENT INFORMATION

For management purposes, the Group is organised into three major business segments. The principal activities and services under these segments are as follows:

- Hotel operations: Provision of hospitality services through the Millennium Hotel and Convention Center Kuwait
- Real estate: Managing investment properties
- Investment: Managing direct investments and investments in subsidiaries and investment in equity-accounted investees

Management monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on return on investments. The Group does not have any inter-segment transactions.

The following table presents segment revenue, expenses, and results information of the Group's operating segments for the nine months ended 30 September 2026 and 30 September 2025:

12 FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value hierarchy

All financial assets and liabilities for which fair value is measured or disclosed in the interim condensed consolidated financial information are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the interim condensed consolidated financial information at fair value on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

The methods and valuation techniques used for the purpose of measuring fair value are unchanged compared to the previous reporting period.

Valuation methods and assumptions

The valuation techniques and inputs used in this interim condensed consolidated financial information are consistent with those followed in the preparation of the Group's annual consolidated financial statements for the year ended 31 December 2025.

12 FAIR VALUE OF FINANCIAL INSTRUMENTS (continued)

Reconciliation of Level 3 fair values
The following table shows a reconciliation of all movements in the fair value of items categorised within Level 3 between the beginning and the end of the reporting period:

	Non-listed equity investments		
		(Audited)	
	30 September 2026 KD	*31 December 2025 KD*	*30 September 2025 KD*

Remeasurement recognised in OCI	**(60,957)**	(96,409)	(96,409)
	255,665	316,622	316,622

Sensitivity analysis
The management assessed that the impact on profit or loss or other comprehensive income would be immaterial if the relevant risk variables used to fair value the financial instruments classified as level 3 were altered by 5 percent.

13 LEGAL CLAIM CONTINGENCIES

The Group is party to ongoing legal claims and proceedings before the respective judicial authorities, principally in relation to the Ijara contract and the associated Islamic finance payables described in Note 8. Based on the legal information available at the date of authorisation of these interim condensed consolidated financial information, the ultimate outcome of these matters cannot presently be determined with reasonable certainty.

Following the Court of Appeal ruling of 22 July 2026, the Parent Company (in its capacity as joint guarantor) has been held jointly liable with the Subsidiary for an amount up to KD 1,500,000. The Parent Company and the Subsidiary have appealed the ruling before the Court of Cassation. Based on the advice of the Group's legal counsel, the financial impact of these matters cannot be determined at present as no final judgments have been issued.

14 IMPACT OF GEOPOLITICAL ESCALATIONS RISK AND RELATED UNCERTAINTY

The Group operates in a global and regional economic environment that continues to be affected by heightened geopolitical tensions in the Middle East. Recent developments in the region have increased uncertainty in financial markets, energy supply and costs, regional security conditions, and global trade routes. The wider regional impact of these events may affect economic conditions relevant to the various sectors. Management has assessed the potential impacts of the geopolitical situation on the Group's operations and financial position, taking into consideration:

- Financing and liquidity, including the availability and cost of debt financing, refinancing risk, and compliance with financial covenants.
- Credit risk, particularly in sectors or geographies that may be indirectly affected by disruptions in trade, energy markets, or regional economic activity.
- Market liquidity risk, including the ability to realise investments at quoted or observable market prices in periods of heightened volatility.
- Foreign exchange risk, arising from increased currency volatility in markets linked to the region.

As at the reporting date, the Group's hospitality operations have been adversely affected by lower occupancy and reduced banqueting and events activity following the geopolitical developments in the region, resulting in a decrease in hospitality income for the period. Management has assessed the impact of this decline on the carrying value of the hotel property, as disclosed in Note 6, and concluded that no impairment loss is required at 30 September 2026. Other than this, management has not identified any material adverse impacts on the overall valuation of the properties or investment portfolios that require specific adjustment beyond those reflected in observable market prices and valuation inputs.

14 IMPACT OF GEOPOLITICAL ESCALATIONS RISK AND RELATED UNCERTAINTY (continued)

In assessing the carrying values of non-financial assets which are prepared on a historical cost basis, management has assessed the decline in hospitality performance as a potential indicator of impairment and concluded that no impairment loss is required at the reporting date (Note 6). However, future adverse developments in the geopolitical environment may result in changes to key valuation assumptions.

The Group's ECL models incorporate forward looking information reflecting multiple macroeconomic scenarios. While increased uncertainty has been incorporated into ECL calculations, management concluded that the allowance for expected credit losses appropriately reflects the level of credit risk inherent in the Group's trade receivable portfolio.

The Group maintains liquidity buffers and capital resources that management considers sufficient to meet its commitments and operating expenses as they fall due. The Group has assessed the potential impact of adverse market movements on its ability to realise investments or access funding, including under stressed market scenarios. No breaches of liquidity thresholds, investment restrictions, or capital management policies were identified as at the reporting date.

Management has also considered the impact of these events on the Group's ability to continue as a going concern and concluded that the going concern basis remains appropriate. The geopolitical situation remains dynamic, and the extent and duration of potential impacts on global financial markets are uncertain. Management continues to monitor developments closely and will reflect any material impacts in future valuations, risk disclosures, and financial reporting as appropriate.

Management continues to monitor the situation and assess potential impacts on the Group. As of the date of authorisation of interim condensed financial information, the financial effects cannot be reliably estimated due to the evolving nature of the events.
