Independent auditors' report on review of the condensed interim consolidated financial information

To the shareholders of The Saudi National Bank

Introduction

We have reviewed the accompanying condensed interim consolidated statement of financial position of **The Saudi National Bank** ("the Bank") and its subsidiaries (collectively referred to as "the Group") as of 30 September 2026 and the related condensed interim consolidated statements of income and comprehensive income for the three-month and nine-month periods ended 30 September 2026, and the condensed interim consolidated statements of changes in equity and cashflows for the nine-month period then ended and other explanatory notes. Management is responsible for the preparation and presentation of this condensed interim consolidated financial information in accordance with International Accounting Standard 34 - *"Interim Financial Reporting"* ("IAS 34"), as endorsed in the Kingdom of Saudi Arabia. Our responsibility is to express a conclusion on this condensed interim consolidated financial information based on our review.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, *"Review of Interim Financial Information Performed by the Independent Auditor of the Entity",* as endorsed in the Kingdom of Saudi Arabia. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing, as endorsed in the Kingdom of Saudi Arabia, and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed interim consolidated financial information is not prepared, in all material respects, in accordance with IAS 34, as endorsed in the Kingdom of Saudi Arabia.

1 GENERAL

(1.1) Introduction

The Saudi National Bank (the "Bank") is a Saudi Joint Stock Company that was formed and licensed under registration certificate authenticated by a Royal Decree on 28 Rajab 1369H (corresponding to 15 May 1950) and registered under commercial registration number 4030001588 dated 19 Safar 1418H (corresponding to 26 June 1997) with Unified Number 7000025887. The Bank is regulated by the Saudi Central Bank (SAMA).

The objective of the Group is to provide a full range of banking and investment management services. The Group also provides non-special commission based banking products in compliance with Shariah rules, which are approved and supervised by an independent Shariah Board established by the Bank.

The Bank operates through its 492 branches (31 December 2025: 481 branches), 24 retail service centers (31 December 2025: 23 centers) and 91 QuickPay remittance centers (31 December 2025: 93 centers) in the Kingdom of Saudi Arabia and four overseas branches in the Kingdom of Bahrain, United Arab Emirates, Qatar and the Republic of Singapore. The Board of Directors in their meeting dated 23 November 2015 resolved to close the Bank's branch operations domiciled in Beirut, Lebanon. The required regulatory approvals have been received and the legal formalities in respect of the closure of the branch are in progress.

The Bank's Head Office is located at the following address:

The Saudi National Bank Tower
King Abdullah Financial District
King Fahd Road,
3208 Al Aqeeq District,
Riyadh 13519 - 6676,
Kingdom of Saudi Arabia

The condensed interim consolidated financial statements is also referred to as the condensed interim consolidated financial information of The Saudi National Bank and its subsidiaries (collectively referred to as the "Group").

1 GENERAL (continued)

(1.2) Group's subsidiaries

The details of the Group's significant subsidiaries are as follows:

Name of subsidiary	Ownership % 30 September 2026	Ownership % 31 December 2025	Ownership % 30 September 2025	Functional currency	Description
SNB Capital Company (SNBC)	**100.00%**	100.00%	100.00%	Saudi Arabian Riyal	A Saudi Closed Joint Stock Company registered in the Kingdom of Saudi Arabia to manage the Bank's investment services and asset management activities.
SNB Capital Dubai Inc.	**100.00%**	100.00%	100.00%	US Dollar	An exempt company with limited liability incorporated in the Cayman Islands to source, structure and invest in private equity and real estate development opportunities across emerging markets.
SNB Capital Real Estate Investment Company (REIC)	**100.00%**	100.00%	100.00%	Saudi Arabian Riyal	The Company is a special purpose entity registered in the Kingdom of Saudi Arabia. The primary objective of REIC is to hold and register the real estate assets on behalf of real estate funds managed by SNB Capital Company.
Türkiye Finans Katılım Bankası A.Ş. (TFKB)	**67.03%**	67.03%	67.03%	Turkish Lira	A participation bank registered in Turkey that collects funds through current accounts, profit sharing accounts and lends funds to consumer and corporate customers, through finance leases and profit/loss sharing partnerships. TF Varlık Kiralama AŞ, (TFVK) and TFKB Varlik Kiralama A.Ş. which are special purpose entities (SPEs), fully owns the issued share capital by TFKB.TF Varlık Kiralama AŞ, (TFVK) established in connection with issuance of sukuks by TFKB and TFKB Varlik Kiralama A.Ş., established in connection with issuance of sukuks by TFKB's clients.
Real Estate Development Company For Management and Ownership Limited (REDCO)	**100.00%**	100.00%	100.00%	Saudi Arabian Riyal	A Limited Liability Company registered in the Kingdom of Saudi Arabia. SNB Funding Limited	**100.00%**	100.00%	100.00%	US Dollar	A Limited Liability Company registered in the Cayman Islands established with the main objective of generating liquidity for the Bank through issuance of bonds.
Al-Ghad Financial Company	**100.00%**	100.00%	100.00%	Saudi Arabian Riyal	A Limited Liability Company registered in the Kingdom of Saudi Arabia, engaged in selling of point of sale (POS) equipment and devices.
NEO Company	**100.00%**	100.00%	-	Saudi Arabian Riyal	A Joint Stock Company registered in the Kingdom of Saudi Arabia, engaged in consumer microfinancing.

2 BASIS OF PREPARATION AND SUMMARY OF MATERIAL ACCOUNTING POLICIES AND ESTIMATES

(2.1) Basis of Preparation

The condensed interim consolidated financial information of the Group as at and for the period ended on 30 September 2026 have been prepared in accordance with International Accounting Standard 34, "Interim Financial Reporting" ("IAS 34") that is endorsed in the Kingdom of Saudi Arabia and other standards and pronouncements endorsed by the Saudi Organization for Chartered and Professional Accountants ("SOCPA").

The condensed interim consolidated financial information do not include all the information and disclosures required in the annual consolidated financial statements, and should be read in conjunction with the Group's annual consolidated financial statements for the year ended 31 December 2025. In addition, results for the nine-month period ended September 30, 2026, are not necessarily indicative of actual results for the full financial year ending on December 31, 2026, and final results may differ. The Consolidated Financial Statements have not been audited by the Group's external auditors. The Group's external auditors have conducted a review in accordance with the International Standard on Review Engagements 2410 'Review of Interim Financial Information performed by the Independent Auditor of the Entity'. The consolidated financial statements of the Group as at and for the year ended 31 December 2025, were prepared in accordance with International Financial Reporting Standards (IFRS® Accounting Standards) as endorsed in the Kingdom of Saudi Arabia and other standards and pronouncements issued by SOCPA.

The condensed interim consolidated financial information are expressed in Saudi Arabian Riyals (﷼).

The preparation of condensed interim consolidated financial information requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

(2.2) Basis of consolidation

The condensed interim consolidated financial information comprise the condensed interim consolidated financial information of The Saudi National Bank and its subsidiaries (see note 1.2). The condensed interim consolidated financial information of the subsidiaries are prepared for the same reporting period as that of the Bank, using consistent accounting policies.

(a) Subsidiaries

Subsidiaries are entities which are controlled by the Group. To meet the definition of control, all three of the following criteria must be met:

i) the Group has power over an entity;
ii) the Group has exposure, or rights, to variable returns from its involvement with the entity; and
iii) the Group has the ability to use its power over the entity to affect the amount of the entity's returns.

Subsidiaries are consolidated from the date on which control is transferred to the Bank and cease to be consolidated from the date on which the control is transferred from the Bank. The results of subsidiaries acquired or disposed off during the period, if any, are included in the condensed interim consolidated statement of income from the date of the acquisition or up to the date of disposal, as appropriate.

(b) Non-controlling interests

Non-controlling interests represent the portion of net income and net assets of subsidiaries not owned, directly or indirectly, by the Bank in its subsidiaries and are presented separately in the condensed interim consolidated statement of income and within equity in the condensed interim consolidated statement of financial position, separately from the Bank's equity. Any losses applicable to the non-controlling interests in a subsidiary are allocated to the non-controlling interests even if doing so causes the non-controlling interests to have a deficit balance.

(c) Associates

Associates are enterprises over which the Group exercises significant influence. Investments in associates are initially recognised at cost and subsequently accounted for under the equity method of accounting and are carried in the condensed interim consolidated statement of financial position at the lower of the equity-accounted or the recoverable amount.

Equity-accounted value represents the cost plus post-acquisition changes in the Group's share of net assets of the associate (share of the results, reserves and accumulated gains/losses based on latest available financial statements) less impairment, if any.

The previously recognised impairment loss in respect of investment in associate can be reversed through the condensed interim consolidated statement of income, such that the carrying amount of the investment in the condensed interim consolidated statement of financial position remains at the lower of the equity-accounted (before provision for impairment) or the recoverable amount. On derecognition the difference between the carrying amount of investment in associate and the fair value of the consideration received is recognised in the condensed interim consolidated statement of income.

(d) Transactions eliminated on consolidation

Intra-group balances, and income and expenses (except for foreign currency transaction gains or losses) arising from intra-group transactions are eliminated in preparing the condensed interim consolidated financial information.

(2.3) Material accounting and risk management policies, estimates and assumptions

The accounting policies, estimates, methods of computation, and assumptions adopted in the preparation of the condensed interim consolidated financial information are consistent with those followed in the preparation of the Group's annual consolidated financial statements for the year ended 31 December 2025, except for the adoption of new standards effective from 1 January 2026, as explained in Note 2.4. The Group has not early adopted any standard, interpretation, or amendment that has been issued but is not yet effective. The Group's assessment of the ongoing geopolitical situation is disclosed in Note 22.

Hyperinflationary economy

Turkey has been considered as a hyperinflationary economy since the second quarter of 2022. TFKB uses the index published by the Turkish Statistical Institute to arrive at the below conversion factors that represents the ratio of hyperinflated balances to historical cost:

Item	30 September 2026	31 December 2025	30 September 2025
Index	**137.23**	110.39	105.78
Conversion factor	**1.2432**	1.3089	1.2543

(2.4) New standards, interpretations and amendments adopted by the Group

The following standards, interpretations or amendments are effective and are adopted by the Group but do not have a significant impact on the condensed interim consolidated financial information of the Group.

Standards, amendments, interpretations	Description	Effective date
Amendments to IFRS 9 and IFRS 7, Amendments to the Classification and Measurement of Financial Instruments	Under the amendments, certain financial assets including those with ESG-linked features could now meet the SPPI criterion, provided that their cash flows are not significantly different from an identical financial asset without such a feature. The IASB has amended IFRS 9 to clarify when a financial asset or a financial liability is recognized and derecognized and to provide an exception for certain financial liabilities settled using an electronic payment system.	1 January 2026
Amendments to IFRS 9 and IFRS 7, Contracts referencing Nature-dependent Electricity	Contracts Referencing Nature-dependent Electricity amends IFRS 9 Financial Instruments and IFRS 7 Financial Instruments: Disclosures to more faithfully reflect the effects of contracts referencing nature-dependent electricity on an entity's financial statements.	1 January 2026
Annual improvements to IFRS – Volume 11	Annual improvements are limited to changes that either clarify the wording in an Accounting Standard or correct relatively minor unintended consequences, oversights or conflicts between the requirements in the Accounting Standards. The 2024 amendments are to the following standards: IFRS 1 First-time Adoption of International Financial Reporting Standards; IFRS 7 Financial Instruments: Disclosures and its accompanying Guidance on implementing IFRS 7; IFRS 9 Financial Instruments; IFRS 10 Consolidated Financial Statements; and IAS 7 Statement of Cash Flows.	1 January 2026

2 BASIS OF PREPARATION AND SUMMARY OF MATERIAL ACCOUNTING POLICIES AND ESTIMATES (continued)

(2.5) Accounting standards issued but not yet effective

The International Accounting Standards Board (IASB) has issued the following standards and amendments which will become effective on or after 1 January 2027. The Group is evaluating the impact on future financial statements, if any, of adopting these pronouncements.

Standards, amendments, interpretations	Description	Effective date
Amendments to IFRS 10 and IAS 28- Sale or Contribution of Assets between an Investor and its Associate or Joint Venture	Partial gain or loss recognition for transactions between an investor and its associate or joint venture only apply to the gain or loss resulting from the sale or contribution of assets that do not constitute a business as defined in IFRS 3 Business Combinations and the gain or loss resulting from the sale or contribution to an associate or a joint venture of assets that constitute a business as defined in IFRS 3 is recognized in full.	Effective date deferred indefinitely
IFRS 18, Presentation and Disclosure in Financial Statements	IFRS 18 provides guidance on items in statement of profit or loss classified into five categories: operating; investing; financing; income taxes and discontinued operations. It defines a subset of measures related to an entity's financial performance as 'management-defined performance measures' ('MPMs'). The totals, subtotals and line items presented in the primary financial statements and items disclosed in the notes need to be described in a way that represents the characteristics of the item. It requires foreign exchange differences to be classified in the same category as the income and expenses from the items that resulted in the foreign exchange differences. The Bank is currently assessing the detailed presentation and disclosure requirements of IFRS 18 and expected impacts are summarized in Note 2.6.	1 January 2027
IFRS 19, Subsidiaries without Public Accountability: Disclosures	IFRS 19 allows eligible subsidiaries to apply International Financial Reporting Standards (IFRS® Accounting Standards) with the reduced disclosure requirements of IFRS 19. A subsidiary may choose to apply the new standard in its consolidated, separate or individual financial statements provided that, at the reporting date it does not have public accountability and its parent produces consolidated financial statements under International Financial Reporting Standards (IFRS® Accounting Standards).	1 January 2027
Amendments to IAS 21 Translation to a Hyperinflationary Presentation Currency	The amendments introduce a specific translation method where a non-hyperinflationary functional currency is translated into a hyperinflationary presentation currency, together with related disclosure requirements. The amendments also provide prospective application when hyperinflation ceases and certain exceptions for entities applying IAS 29.	1 January 2027
IFRS 20 — Regulatory Assets and Regulatory Liabilities	The new Standard establishes recognition, measurement, presentation and disclosure requirements for entities subject to specific rate regulation, including regulatory assets, liabilities, income and expenses. It is effective for annual periods beginning 1 January 2029, with early application permitted, and replaces IFRS 14.	1 January 2029

(2.6) IFRS 18 – Presentation and Disclosure in Financial Statements

IFRS 18 'Presentation and Disclosure in Financial Statements', as endorsed in Kingdom of Saudi Arabia (IFRS 18) will replace IAS 1 'Presentation of Financial Statements'' as endorsed in the Kingdom of Saudi Arabia, for annual reporting periods beginning on or after 1 January 2027. Earlier application is permitted. The Bank has not early adopted IFRS 18 in preparing this interim condensed consolidated financial information.

The Bank has established a formal IFRS 18 implementation programme overseen by senior management, supported by a cross-functional working group comprising representatives from Financial Reporting, Treasury, Credit Risk & Risk Management and Information Technology functions . The programme includes assessments of financial statement presentation, management reporting, data and systems requirements and reporting implications.

The Bank is currently assessing the expected impact of initial application of IFRS 18 on its interim condensed consolidated financial information and the annual consolidated financial statements. Based on the assessment performed to date, the bank has identified specified main business activities of providing financing to customers and investing in financial assets.

In line with IFRS 18 guidance to provide useful structured summaries, the bank has to make judgements relating to how items are aggregated and disaggregated in the primary financial statements and the notes. The bank expect to aggregate items based on shared characteristics, and disaggregated items based on characteristics that are not shared and accordingly, there will be changes to the presentation of financial statements. Further, the bank is assessing the labelling of certain financial statement line items and may find more appropriate labelling for those that previously contained the word 'other'.

Presentation of Statement of Income

IFRS 18 requires entities to classify income and expenses into specified categories within the statement of income, namely operating, investing, financing, income taxes and discontinued operations. It requires presentation of operating income or loss and profit or loss for the period, together with profit or loss before financing and income taxes, where applicable. Neither total income for the period nor total equity is expected to change as a result of adoption of IFRS 18. However, the Bank expects changes to the presentation and classification of certain income and expense items within the statement of income, including the introduction of IFRS-defined subtotals. Based on the assessment performed to date, the Bank expects the following impacts on its interim condensed consolidated statement of income:

• Financing income arising from customer financing assets, investment securities and treasury activities supporting the Bank's specified main business activities is expected to be presented within the operating category.

• Special commission expense relating to customer deposits, debt securities issued and other financial liabilities that relate to the Bank's specified main business activities are expected to be presented within the operating category.

• The Bank is assessing line items previously labelled "other" and disaggregated items that are material. The remaining balances will be presented as other individually immaterial operating income and other individually immaterial operating expenses, to provide a more informative label in line with IFRS 18.

• Depreciation and amortisation will be disaggregated and presented on the face of the statement of income as depreciation on property and equipment and right-of-use assets and amortisation of intangible assets' respectively. This gives more transparent information about the nature of expenses.

• Foreign exchange differences are expected to be classified in the same category as the underlying assets and liabilities giving rise to those differences. Based on the Bank's current assessment, the majority of foreign exchange differences arise from financing, treasury and investment activities that relates to the main business activities (including its specified main business activities) and are therefore expected to be presented within operating category. The Bank continues to assess whether any foreign exchange differences relate to activities that may require presentation outside the operating category under IFRS 18.

• Gains and losses arising from derivatives designated in hedging relationships are expected to be presented in the same category as the underlying hedged exposures. Based on the Bank's current assessment, the majority of derivatives are associated with customer financing, treasury and funding activities that relates to the Bank's main business activities (including its specified main business activities) and are therefore expected to be presented within operating category. The Bank continues to assess whether any derivatives relate to activities that may require presentation outside the operating category under IFRS 18.

• Income and expenses from investment properties generating returns individually and largely independently of the Bank's other resources will be classified in investing category.

• Certain expenses arising from liabilities or other obligations that are not directly linked to the Bank's specified main business activities, i.e. special commission expense on lease liabilities and the special commission expense of employee benefit obligations are currently being assessed and would be presented within the financing category in accordance with IFRS 18.

• The share of profit or loss from associates and joint ventures accounted for using the equity method, if any, will be presented within the investing category and outside operating income as required by IFRS 18

In addition, IFRS 18 may require changes to certain line-item descriptions, subtotals and disclosures currently presented in the statement of income. The assessment remains subject to completion of the Bank's implementation activities and any future accounting / other regulatory bodies' interpretations, guidance or developments.

Management-defined Performance Measures

IFRS 18 introduces new disclosure requirements for Management-defined Performance Measures ("MPMs"), which are subtotals of income and expenses used in public communications to communicate management's view of an aspect of the Bank's financial performance. Such measures will be required to be disclosed within a single note to the financial statements together with explanations as to variances and reconciliations to the most directly comparable IFRS-defined totals or subtotals.

The Bank is assessing whether measures communicated externally, including net financing income, net operating income before impairment allowance and other performance metrics, meet the definition of MPMs under IFRS 18 and may therefore require enhanced disclosures and reconciliations.

Consequential Amendments

IFRS 18 introduces consequential amendments to other IFRS, including IAS 7 Statement of Cash Flows, IAS 33 Earnings per Share and IAS 34 Interim Financial Reporting.

In the statement of cash flows, the indirect method will start from operating income instead of profit before zakat and income tax, so the adjustments are limited to non-cash and non-operating items. Items presented below operating income in the interim condensed consolidated statement of income, such as finance costs on lease liabilities and EOSB obligations, no longer require adjustment.

The Bank has elected to classify all special commission expense and special commission income as operating cash flows, as it provides financing to customers as a specified main business activities and special commission expense is recognised in more than one category in the statement of income. Finance cost on Type 2 liabilities (liabilities that do not arise from transactions involving only the raising of finance, such as lease liabilities, end-of-service benefit (EOSB) obligations and provisions) and Special commission expense on Type 1 liabilities (liabilities that arise from transactions involving only the raising of finance) that does not relate to the Bank's specified main business activities, is presented in the financing category in the statement of income. Related cash flows will be presented in operating activities, consistent with the single-category presentation requirement for the cashflow.

The Bank is evaluating requirements relating to comparative information and retrospective application upon adoption of IFRS 18. The Bank's assessment remains ongoing and further refinements to the expected impact may arise as implementation activities progress, industry practice evolves and additional guidance from regulators and standard setters become available.

3 CASH AND BALANCES WITH CENTRAL BANKS

7 DERIVATIVES

In the ordinary course of business, the Group utilises the following derivative financial instruments for both trading and hedging purposes:

(a) Swaps

Swaps are commitments to exchange one set of cash flows for another. For interest rate swaps, counterparties generally exchange fixed and floating rate interest rate payments in a single currency without exchanging principal. For currency swaps, principal are exchanged in different currencies. For cross-currency interest rate swaps, principal and fixed and floating special commission payments are exchanged in different currencies.

(b) Forwards and futures

Forwards and futures are contractual agreements to either buy or sell a specified currency, commodity or financial instrument at a specified price and date in the future. Forwards are customized contracts transacted in the over-the-counter market. Foreign currency and interest rate futures are transacted in standardized amounts on regulated exchanges. Changes in futures contract values are settled daily.

(c) Forward rate agreements

Forward rate agreements are individually negotiated interest rate contracts that call for a cash settlement for the difference between a contracted interest rate and the market rate on a specified future date, based on a notional principal for an agreed period of time.

(d) Options

Options are contractual agreements under which the seller (writer) grants the purchaser (holder) the right, but not the obligation, to either buy or sell at a fixed future date or at any time during a specified period, a specified amount of a currency, commodity or financial instrument at a pre-determined price.

(e) Structured derivative products

Structured derivative products provide financial solutions to the customers of the Group to manage their risks in respect of foreign exchange, interest rate and commodity exposures and enhance yields by allowing deployment of excess liquidity within specific risk and return profiles. The majority of the Group's structured derivative transactions are entered on a back-to-back basis with various counterparties.

(7.1) Derivatives held for trading purposes

Most of the Group’s derivative trading activities relate to sales, positioning and arbitrage. Sales activities involve offering products to customers and banks in order to enable them to transfer, modify or reduce current and future risks. Positioning involves managing market risk positions with the expectation of profiting from favorable movements in prices, rates or indices. Arbitrage involves profiting from price differentials between markets or products.

(7.2) Derivatives held for hedging purposes

The Group has adopted a comprehensive system for the measurement and management of risk. Part of the risk management process involves managing the Group's exposure to fluctuations in foreign exchange and interest rate to reduce its exposure to currency and interest rate risks to acceptable levels as determined by the Board of Directors within the guidelines issued by SAMA.

The Board of Directors has established levels of currency risk by setting limits on counterparty and currency position exposures. Positions are monitored on a daily basis and hedging strategies are used to ensure that positions are maintained within the established limits. Asset and liability interest rate gaps are reviewed on a periodic basis and hedging strategies are used to reduce interest rate gaps to within the established limits.

As part of its asset and liability management, the Group uses derivatives for hedging purposes in order to adjust its own exposure to currency and interest rate risks. This is generally achieved by hedging specific transactions as well as strategic hedging against overall statement of financial position exposures. Strategic hedging does not qualify for special hedge accounting and the related derivatives are accounted for as held for trading, such as interest rate swaps, interest rate options and futures, forward foreign exchange contracts and currency options.

The Group uses interest rate swaps to hedge against the interest rate risk arising from specifically identified fixed interest rate exposures. The Group also uses interest rate swaps to hedge against the cash flow risk arising on certain floating rate exposures. In all such cases, the hedging relationship and objective, including details of the hedged items and hedging instrument, are formally documented and the transactions are accounted for as fair value or cash flow hedges.

7 DERIVATIVES (continued)

The table below shows the positive and negative fair values of derivative financial instruments, together with the notional amounts. The notional amounts, which provide an indication of the volumes of the transactions outstanding at the end of the period, do not necessarily reflect the amounts of future cash flows involved. These notional amounts, therefore, are neither indicative of the Group's exposure to credit risk, which is generally limited to the positive fair value of the derivatives, nor to market risk.

10 DEBT SECURITIES IN ISSUE AND TERM LOANS

Debt securities in issue and term loans comprises of:

	30 September 2026 (Unaudited)	31 December 2025 (Audited)	30 September 2025 (Unaudited)
Debt securities in issue	**76,103,032**	72,993,614	70,101,567
Term loans	**56,872,687**	59,648,749	50,578,044
Total	**132,975,719**	132,642,363	120,679,611

Debt securities

As at the reporting date, debt securities in issue comprise non-convertible sukuks and certificates of deposits issued by the Group, carrying profit at fixed and floating rates, with maturities up to 2035. Below is the movement of debt securities:

	30 September 2026 (Unaudited)	31 December 2025 (Audited)	30 September 2025 (Unaudited)
Balance at beginning of the year	**72,993,614**	46,622,413	46,622,413
Debt securities issued	**40,856,527**	109,661,419	81,958,964
Debt securities payment	**(37,850,640)**	(83,631,598)	(58,771,065)
Foreign currency translation and other adjustments	**103,531**	341,380	291,255
Balance at the end of the period/year	**76,103,032**	72,993,614	70,101,567

The amount of debt securities in issue that are compliant with Shariah is ﷼8,588 million (31 December 2025: ﷼8,392 million and 30 September 2025: ﷼7,346 million)

The movement in term loans is as follows:

	30 September 2026 (Unaudited)	31 December 2025 (Audited)	30 September 2025 (Unaudited)
Balance at beginning of the year	**59,648,749**	48,682,958	48,682,958
Term loans issued	**42,933,979**	66,785,523	40,861,125
Term loans payment	**(45,914,018)**	(55,639,003)	(38,779,003)
Foreign currency translation and other adjustments	**203,977**	(180,729)	(187,036)
Balance at the end of the period/year	**56,872,687**	59,648,749	50,578,044

11 CREDIT RELATED COMMITMENTS AND CONTINGENCIES

(11.1) The Group's credit related commitments and contingencies are as follows:

	30 September 2026 (Unaudited)	31 December 2025 (Audited)	30 September 2025 (Unaudited)
Letters of credit	**17,178,049**	16,966,498	18,505,526
Guarantees	**89,975,478**	92,612,856	90,338,066
Acceptances	**10,072,047**	7,001,889	7,581,242
Irrevocable commitments to extend credit	**56,751,170**	61,506,031	48,385,823
Total	**173,976,744**	178,087,274	164,810,657

(11.2) The movement in ECL on commitments and contingencies is as follows:

12 SHARE CAPITAL

The authorized, issued and fully paid share capital of the Bank consists of 6,000 million shares of ﷼10 each (31 December 2025: 6,000 million shares and 30 September 2025: 6,000 million shares of ﷼10 each). The capital of the Bank excluding treasury shares consists of 5,935 million shares of ﷼10 each (31 December 2025: 5,931 million shares and 30 September 2025: 5,936 million shares of ﷼10 each).

13 DIVIDEND

The details of dividends paid to the Bank's shareholders are as follows:

Distribution date	Amount (﷼ per share)	Total payout net of zakat (﷼'000)	Type	Status
August 2026	1.15	6,900,000	Interim	Paid
April 2026	1.15	6,900,000	Final	Paid
August 2025	1.00	6,000,000	Interim	Paid
February 2025	1.00	6,000,000	Final	Paid

14 ZAKAT AND TAX

The Bank and it's Saudi subsidiaries are subject to zakat in accordance with regulations of the Zakat, Tax and Customs Authority ("ZATCA"). The Bank's foreign subsidiaries are obliged to pay income tax as per applicable tax laws of their countries of incorporation. Zakat expense is charged to the consolidated statement of income. The Bank calculated zakat accruals for the period ended 30 September 2026 based on applicable zakat rules for financial institutions. The Bank submitted its zakat return for the year ended 31 December 2025, and obtained the unrestricted zakat certificate. The financial years 2021 and 2025 are under the review of ZATCA, the assessments in respect to the Bank's zakat returns for the financial years 2020, 2022, 2023 and 2024 have been finalized.

International Tax Reform – Pillar Two Model Rules

The Pillar Two model rules seek to ensure that Multinational Enterprise Groups that have consolidated revenue of at least Euro 750 million pay tax on their "excess" profits in each jurisdiction in which they have presence at the rate of at least 15%. If the Group's effective tax rate on its excess profits in a jurisdiction is less than the 15% minimum rate, then an additional top-up tax may be charged, broadly equal to the shortfall between the jurisdiction's effective tax rate and the 15% minimum rate, needed to bring the Group's effective tax rate in that jurisdiction up to 15%.

As the Group has presence in jurisdictions that have enacted legislation in relation to the Pillar Two model rules – in particular Qualified Domestic Minimum Top-up Taxes ("QDMTT") and the Under Tax Profits Rule ("UTPR"), it falls within the scope of the Organisation for Economic Co-operation and Development ("OECD") Pillar Two Global Minimum Tax framework in jurisdictions that have implemented the relevant rules. Saudi Arabia as the jurisdiction of the ultimate parent entity, has not implemented the Pillar Two rules. As a result, the Group may be exposed to top-up tax under the Undertaxed Profits Rule ("UTPR") in jurisdictions that have implemented the relevant rules.

Given these developments and the complexity associated with the application of the UTPR in these circumstances, management, together with its advisors, is continuing to assess the potential impact of the Pillar Two income tax rules on the Group's financial statements, in accordance with the relevant accounting standards, laws and regulations.

15 ADDITIONAL TIER 1 CAPITAL

During the period ended 30 September 2026, the Bank issued Additional Tier 1 Capital as follows: i) Additional Tier 1 Notes amounting to $ 1 billion (equivalent to ﷼ 3.75 billion) and ii) Additional Tier 1 Sukuk amounting to approximately ﷼ 4.875 billion. These arrangements were approved by the regulatory authorities and the Board of Directors of the Bank. Moreover, the Bank exercised the call option on its existing Additional Tier 1 Sukuk that was issued on 26 January 2021, amounting to $1.25 billion.

The applicable profit rate on the Additional Tier 1 capital is payable on each periodic distribution date, except upon the occurrence of a non-payment event or non-payment election by the Group whereby the Group may at its sole discretion (subject to certain terms and conditions) elect not to make any payments. Such non-payment event or non-payment election are not considered to be events of default and the amounts not paid thereof shall not be cumulative or compound with any future payments.

Additional Tier 1 Notes

Additional Tier 1 notes are perpetual securities in respect of which there are no fixed redemption dates, with each note constituting an unsecured, conditional and subordinated obligation of the Group classified under equity. However, the Group shall have the exclusive right to redeem or call the Additional Tier 1 notes in a specific period of time, subject to the terms and conditions of the Additional Tier 1 notes.

Additional Tier 1 Sukuk

Additional Tier 1 sukuk are perpetual securities in respect of which there is no fixed redemption dates and represents an undivided ownership interest of the Additional Tier 1 sukuk -holders in the Additional Tier 1 sukuk assets, with each Sakk constituting an unsecured, conditional and subordinated obligation of the Group classified under equity. However, the Group shall have the exclusive right to redeem or call the Additional Tier 1 sukuk in a specific period of time, subject to the terms and conditions of the Additional Tier 1 sukuk.

16 BASIC AND DILUTED EARNINGS PER SHARE

Basic and diluted earnings per share for the periods ended 30 September 2026 and 30 September 2025 is calculated by dividing the net income attributable to common equity holders of the Bank (after deduction of additional Tier 1 capital costs) for the year by the weighted average number of shares outstanding during the year. The diluted earnings per share are adjusted for the impact of the employees' share based payment plan.

17 CASH AND CASH EQUIVALENTS

Cash and cash equivalents included in the condensed interim consolidated statement of cash flows comprise the following:

	30 September 2026 (Unaudited)	31 December 2025 (Audited)	30 September 2025 (Unaudited)
Cash and balances with central banks excluding statutory deposit with central banks (note 3)	**18,611,265**	8,792,242	9,357,214
Due from banks and other financial institutions with original maturity of three months or less	**10,743,703**	17,289,809	18,989,496
Total	**29,354,968**	26,082,051	28,346,710

18 OPERATING SEGMENTS

An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Group's other components, whose operating results are reviewed regularly by the Group's management.

The Group has four reportable segments, as described below, which are the Group's strategic divisions. The strategic divisions offer different products and services, and are managed separately based on the Group's management and internal reporting structure.

Retail	Provides banking services, including lending and current accounts in addition to products in compliance with Shariah rules which are supervised by the independent Shariah Board, to individuals and private banking customers.
Wholesale	Provides banking services including all conventional credit-related products as well as financing products in compliance with Shariah rules to small sized businesses, medium and large establishments and companies. Wholesale also provides full range of treasury and correspondent banking products and services, including money market and foreign exchange, in addition to carrying out investment and trading activities (local and international) and managing liquidity risk, market risk and credit risk.
Capital Market	Provides wealth management, asset management, investment banking and shares brokerage services (local and international).
International	Comprises banking services provided outside Saudi Arabia. TFKB and SBL are included within this segment.

Transactions between the operating segments are recorded as per the Bank and its subsidiaries' transfer pricing system. The support and Head Office expenses are allocated to segments using activity-based costing.

18 OPERATING SEGMENTS (continued)

The Group's total operating income, expenses (total and main items), and net income for the period before zakat and income tax, by business segments, are as follows:

19 DETERMINATION OF FAIR VALUE AND FAIR VALUE HIERARCHY

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction takes place either:

- In the accessible principal market for the asset or liability; or
- In the absence of a principal market, in the most advantageous accessible market for the asset or liability.

Fair value information of the Group's financial instruments is analysed below:

a. Fair value information for financial instruments at fair value and investments held at amortized cost - fair value hedged

The Group uses the following hierarchy for determining and disclosing the fair value of financial instruments:

Level 1: Quoted prices in active markets for the same instrument;

Level 2: Quoted prices in active markets for similar assets and liabilities or valuation techniques for which all significant inputs are based on observable market data; and

Level 3: Valuation techniques for which any significant input is not based on observable market data.

For assets and liabilities that are recognised at fair value on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

There were no changes in the Group's valuation processes, valuation techniques, and types of inputs used in the fair value measurements during the period.

The following table shows an analysis of financial instruments recorded at fair value by level of the fair value:

	30 September 2026 (Unaudited)

19 DETERMINATION OF FAIR VALUE AND FAIR VALUE HIERARCHY (continued)

b. Fair value information for financial instruments not measured at fair value

The fair value of Group's financing and advances as at 30 September 2026 by applying the guidance of IFRS 13 "Fair Value Measurement", was 1.7% lower than the corresponding book value (31 December 2025: 0.9% lower than the corresponding book value and 30 September 2025: 0.9% lower than the corresponding book value).

The fair values of due from banks and other financial institutions, Due to banks, Central Banks and other financial institutions, customers' deposits and debt securities in issue and term loans at 30 September 2026, 31 December 2025 and 30 September 2025 are not materially different from their respective carrying values included in the consolidated financial statements, since the current market commission rates for similar financial instruments are not significantly different from the contracted rates, and due to the short duration of due from and due to banks and other financial institutions. An active market for these instruments is not available and the Bank intends to realize the carrying value of these financial instruments through settlement with the counter party at the time of their respective maturities.

c. Valuation technique and significant unobservable inputs for financial instruments at fair value

The Group uses various valuation techniques for the determination of fair values for financial instruments classified under levels 2 and 3 of the fair value hierarchy. These techniques and the significant unobservable inputs used therein are analysed below.

The Group utilises fund managers' reports (and appropriate discounts or haircuts where required) for the determination of fair values of private equity funds, hedge funds, and private debt funds. The fund manager deploys various techniques (such as discounted cash flow models and multiples method) for the valuation of underlying financial instruments classified under levels 2 and 3 of the respective fund's fair value hierarchy. Significant unobservable inputs embedded in the models used by the fund manager include risk adjusted discount rates, marketability and liquidity discounts and control premiums.

For the valuation of unquoted debt securities and derivative financial instruments, the Group obtains fair value estimates from reputable third party valuers, who use techniques such as discounted cash flows, option pricing models and other sophisticated models.

d. Transfer between Level 1 and Level 2 of the fair value hierarchy

During the period ended 30 September 2026 there were FVOCI debt securities transfers from level 2 to level 1 with a carrying amount of ﷼ 268 million (31 December 2025: FVOCI debt securities with a carrying amount of ﷼ 11 million were transferred from Level 2 to Level 1, and 30 September 2025: Nil).

e. Reconciliation of Level 3 fair values

The following table shows a reconciliation from the opening balances to the closing balances for Level 3 fair values:

	30 September 2026 (Unaudited)		
	Financial asset held at FVIS	**Financial asset held at FVOCI**	**Total**
Balance as at 1 January 2026	**19,144,243**	**365,835**	**19,510,078**
Total gains/(losses), realised and unrealised	**572,633**	**20,091**	**592,724**
Purchases	**4,213,964**	**450,000**	**4,663,964**
Sales/Maturities	**(1,924,593)**	**(32,185)**	**(1,956,778)**
Other movements	-	-	-
Balance as at 30 September 2026	**22,006,247**	**803,741**	**22,809,988**

	31 December 2025 (Audited)		
	Financial asset held at FVIS	Financial asset held at FVOCI	Total
Balance as at 1 January 2025	13,845,436	139,310	13,984,746
Total gains/(losses), realised and unrealised	1,331,405	13,171	1,344,576
Purchases	5,236,521	-	5,236,521
Sales/Maturities	(966,337)	(89,428)	(1,055,765)
Other movements	(302,782)	302,782	-
Balance as at 31 December 2025	19,144,243	365,835	19,510,078

	30 September 2025 (Unaudited)		
	Financial asset held at FVIS	Financial asset held at FVOCI	Total
Balance as at 1 January 2025	13,845,436	139,310	13,984,746
Total gains/(losses), realised and unrealised	1,389,179	14,745	1,403,924
Purchases	4,689,315	301,097	4,990,412
Sales/Maturities	(1,662,349)	(19,959)	(1,682,308)
Other movements	-	-	-
Balance as at 30 September 2025	18,261,581	435,193	18,696,774

20 RELATED PARTY TRANSACTIONS

In the ordinary course of its activities, the Group transacts business with related parties. The related party transactions are governed by limits set by the Banking Control Law and regulations issued by SAMA and approved by the board of directors and management. Related party balances include the balances resulting from transactions with Governmental shareholders. The ultimate controlling party is the Public Investment Fund "PIF", ultimately owned by the Saudi government.

(20.1) The balances resulting from such transactions included in the condensed interim consolidated financial information are as follows:

	30 September 2026 (Unaudited)	31 December 2025 (Audited)	30 September 2025 (Unaudited)
Major shareholders and their affiliates with significant influence:			
Customers' deposits	**14,690,768**	14,186,698	19,206,071
Financing and advances	**62,786,965**	47,607,684	45,937,411
Impairment charges for credit losses, net	**50,405**	8,706	8,319
Commitments and contingencies	**7,600,996**	8,016,907	8,154,337
Directors, key management personnel and other companies:			
Financing and advances	**14,250,034**	8,645,585	9,013,064
Impairment charges for credit losses, net	**5,035**	13,584	6,272
Customers' deposits	**40,075,258**	5,012,870	5,725,453
Commitments and contingencies	**849,012**	394,156	409,290
End of service benefits	**51,935**	43,489	45,011
Bank's mutual funds:			
Customers' deposits	**462**	213	161

(20.2) Income and expenses pertaining to transactions with related parties included in the condensed interim consolidated financial information are as follows:

	30 September 2026 (Unaudited)	30 September 2025 (Unaudited)
Major shareholder and their affiliates with significant influence:		
Special commission income	**2,174,609**	2,013,383
Special commission expense	**436,332**	853,522
Fees and commission income and expense, net	**168,577**	172,475
Directors, key management personnel and other Companies:		
Special commission income	**1,025,898**	476,785
Special commission expense	**1,182,642**	458,949
Fees and commission income and expense, net	**80,067**	36,130
Directors' remuneration	**362**	388
End of service benefit obligation	**155,966**	114,441
Bank's mutual funds:		
Special commission expense	**16**	21

(20.3) The total amount of compensation paid to directors and key management personnel during the period is as follows:

	30 September 2026 (Unaudited)	30 September 2025 (Unaudited)
Short-term employee benefits	**61,979**	57,000
Directors' remuneration	**3,816**	2,589
Post-employment benefits	**72**	106
Other long-term benefits	**340,680**	290,387
Share-based payments	**26,599**	17,410

21 CAPITAL ADEQUACY

The Group's objectives when managing capital are to comply with the capital requirements set by SAMA to safeguard the Group's ability to continue as a going concern and to maintain a strong capital base.

Capital adequacy and the use of regulatory capital are monitored regularly by management. SAMA requires holding a minimum level of regulatory capital and maintaining a ratio of total regulatory capital to the risk-weighted asset at or above Basel prescribed minimum.

The Group monitors the adequacy of its capital using ratios established by SAMA. These ratios measure capital adequacy by comparing the Bank's eligible capital with its statement of financial position assets, commitments and notional amounts of derivatives at a weighted amount to reflect their relative risk. As at 30 September 2026, the Bank is in compliance with the externally imposed capital requirements.

The following table summarizes the Bank's Pillar-1 Risk Weighted Assets, Tier 1 and Tier 2 capital and capital adequacy ratios:

	30 September 2026 (Unaudited)	31 December 2025 (Audited)	30 September 2025 (Unaudited)
Risk Weighted Assets			
Credit risk	**798,350,981**	773,405,058	747,263,552
Operational risk	**44,482,938**	38,614,619	38,614,619
Market risk	**17,038,166**	18,138,219	18,223,149
Total Pillar-1 - risk weighted assets	**859,872,085**	830,157,896	804,101,320
Common Equity Tier 1 Capital (CET1)	**149,186,364**	147,267,575	141,212,029
Core capital (Tier 1)	**170,062,867**	164,209,115	157,195,043
Supplementary capital (Tier 2)	**11,708,385**	11,426,061	9,789,282
Core and supplementary capital (Tier 1 and Tier 2)	**181,771,252**	175,635,176	166,984,325
Capital Adequacy Ratio (Pillar 1)			
Common Equity Tier 1 Capital (CET1) ratio	**17.3%**	17.7%	17.6%
Core capital (Tier 1) ratio	**19.8%**	19.8%	19.5%
Core and supplementary capital (Tier 1 and Tier 2) ratio	**21.1%**	21.2%	20.8%

Tier 1 capital of the Group comprises share capital, statutory reserve, other reserves, retained earnings, Tier 1 eligible debt securities, foreign currency translation reserve, non-controlling interests, treasury shares, less goodwill, intangible assets and other prescribed deductions. Tier 2 capital comprises of eligible debt securities issued and prescribed amounts of eligible portfolio (collective) provisions less prescribed deductions.

The Group uses the Standardized approach of Basel IV final reforms to calculate the Risk-Weighted Assets and required regulatory capital for Pillar-1 (including Credit Risk, Market Risk and Operational Risk). The management is responsible for ensuring that minimum required Regulatory Capital calculated is compliant with Basel IV final reforms requirements. Quarterly prudential returns are submitted to SAMA showing the Capital Adequacy Ratio.

22 IMPACT OF GEO-POLITICAL SITUATION ON EXPECTED CREDIT LOSSES ("ECL")

The geopolitical situation in the Middle East has deteriorated significantly since 28 February 2026 and remained elevated during the third quarter of 2026, with continued uncertainty surrounding the Strait of Hormuz and disruptions to regional maritime trade and energy transportation. During September 2026, further security incidents affecting commercial shipping were reported. These developments indicate that geopolitical and supply-chain risks remained relevant throughout the third quarter, requiring continued assessment of their potential impact on the Bank.

The Bank continues to evaluate and closely monitor the current situation to assess any impact the geopolitical situation may have had on its business and financial performance, through conducting stress-testing scenarios, as appropriate, on expected movements of oil prices and its impact on key credit, liquidity, operational, solvency and performance indicators in addition to other risk management practices. The steps taken by management also included the review of credit exposures at a more granular level with particular focus on specific economic sectors, and collateral protection, where required.

The prevailing geopolitical situation, has brought about additional uncertainties in the economic environment. However, it continues to be challenging to reliably ascertain the specific effects the conflict will have, therefore the Bank is assessing for any potential credit impairment to be reflected through the application of the staging criteria, or adjusting macroeconomic variables or scenario weights or recognition of overlays on the impacted portfolio, if any. Based on management's analysis and assessment, there is no significant impact on ECL stemming from the ongoing conflict due to underlying sectoral concentration of the portfolio.

Subsequent to the period ended 30 September 2026, the volatility of the ongoing geopolitical situation in the Kingdom of Saudi Arabia has escalated and creates a heightened level of credit risk, liquidity risk and operational risk. However, the potential financial impact of such situation is uncertain as the situation is still evolving, and therefore the Bank will continue to reassess its position and the related impact on a regular basis as more reliable data becomes available and accordingly determine if any adjustment in the ECL is required in subsequent reporting periods.

23 COMPARATIVE FIGURES

Certain insignificant prior period figures have been reclassified to conform to current period presentation.

24 BOARD OF DIRECTORS' APPROVAL

The condensed interim consolidated financial information were approved and authorised for issue by the Board of Directors on 20 October 2026 (corresponding to 09 Jumada al-Awwal 1448H).
