REPORT ON REVIEW OF INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS TO THE BOARD OF DIRECTORS OF

NATIONAL CENTRAL COOLING COMPANY PJSC

Introduction
We have reviewed the accompanying interim condensed consolidated financial statements of National Central Cooling Company PJSC (the "Company") and its subsidiaries (together referred to as the "Group") as at 30 September 2026, comprising the interim consolidated statement of financial position as at 30 September 2026, and the related interim consolidated statements of profit or loss and comprehensive income for the three and nine month periods then ended and the related interim consolidated statement of changes in equity and cash flows for the nine month period then ended and explanatory notes. Management is responsible for the preparation and fair presentation of these interim condensed consolidated financial statements in accordance with International Accounting Standard (IAS) 34 "*Interim Financial Reporting"*. Our responsibility is to express a conclusion on these interim condensed consolidated financial statements based on our review.

Scope of review
We conducted our review in accordance with the International Standard on Review Engagements 2410, *"Review of Interim Financial Information Performed by the Independent Auditor of the Entity"*. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion
Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial statements are not prepared, in all material respects in accordance with IAS 34, "*Interim Financial Reporting*".

1 GENERAL INFORMATION

National Central Cooling Company PJSC ("Tabreed" or the "Company") is registered in the United Arab Emirates as a Public Joint Stock Company pursuant to the UAE Federal Law No. (32) of 2021, as amended and is listed on the Dubai Financial Market. The Company's registered office is located at P.O. Box 32444, Dubai, United Arab Emirates.

These interim condensed consolidated financial statements include the results of operations and financial position of the Company and its subsidiaries (together referred to as the "Group").

The principal activities of the Group are supply of chilled water, operation and maintenance of plants, construction of secondary networks, manufacturing of pre-insulated pipes and design and supervision consultancy.

The Group's non-convertible bonds and sukuk are listed on the London Stock Exchange (note 14).

2 BASIS OF PREPARATION

2.1 Statement of compliance

The interim condensed consolidated financial statements of the Group are prepared in accordance with International Accounting Standard (IAS) 34 "*Interim Financial Reporting*".

The interim condensed consolidated financial statements are prepared under the historical cost basis, except for derivative financial instruments which are measured at fair value.

The interim condensed consolidated financial statements have been presented in United Arab Emirates Dirham (AED), which is the reporting currency of the Group and the functional currency of the Company. All values are rounded to the nearest thousand (AED '000) except otherwise indicated.

The interim condensed consolidated financial statements do not include all information and disclosures required in the annual consolidated financial statements prepared in accordance with International Financial Reporting Standards and should be read in conjunction with the Group's annual consolidated financial statements for the year ended 31 December 2025. In addition, results for the nine month period ended 30 September 2026 are not necessarily indicative of the results that may be expected for the financial year ending 31 December 2026.

2.2 Basis for consolidation

The interim condensed consolidated financial statements of the Group comprise the financial information of the Company and its subsidiaries.

Control is achieved when the Group:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

2 BASIS OF PREPARATION (continued)

2.2 Basis for consolidation (continued)

When the Group has less than a majority of the voting rights of an investee, it has power over the investee when the voting rights are sufficient to give it the practical ability to direct the relevant activities of the investee unilaterally.

The Group considers all relevant facts and circumstances in assessing whether or not the Group's voting rights in an investee are sufficient to give it power, including:

- the size of the Group's holding of voting rights relative to the size and dispersion of holdings of the other vote holders;
- potential voting rights held by the Group, other vote holders or other parties;
- rights arising from other contractual arrangements; and
- any additional facts and circumstances that indicate that the Group has, or do not have, the current ability to direct the relevant activities at the time that decisions need to be made, including voting patterns at previous shareholders' meetings.

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the period are included in the interim condensed consolidated statement of profit or loss from the date the Group gains control until the date when the Group ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with the Group's accounting policies.

When the Group loses control of a subsidiary, a gain or loss is recognised in profit or loss and is calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest and (ii) the previous carrying amount of the assets and liabilities of the subsidiary and any non-controlling interests. All amounts previously recognised in other comprehensive income in relation to that subsidiary are accounted for as if the Group had directly disposed of the related assets or liabilities of the subsidiary (i.e. reclassified to profit or loss or transferred to another category of equity as specified/permitted by applicable IFRSs). The fair value of any investment retained in the former subsidiary at the date when control is lost is regarded as the fair value on initial recognition for subsequent accounting under IFRS 9, when applicable, the cost on initial recognition of an investment in an associate or a joint venture.

All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

** During the period, the Company acquired the remaining 25% ownership interest from the other shareholders following the exercise of the put option in December 2025. The transfer of the remaining ownership interest became effective upon settlement of the consideration in February 2026, resulting in the entities becoming wholly owned subsidiaries of the Group.

2.3 Geopolitical Conflict and Impact on Operations

As at 30 September 2026, the Group continues to operate within stable conditions. The current geopolitical environment gives rise to some uncertainties in the regions where the Group operates.

However, the management has been continually evaluating the potential implications based on information available and does not anticipate any material impact on the Group's financial position or performance. Given the evolving nature of the situation, the Group continues to closely monitor developments during the upcoming period. In particular, the district cooling industry may be indirectly impacted by existing challenges.

3 MATERIAL ACCOUNTING POLICY INFORMATION

3.1 New standards, interpretations and amendments adopted by the Group

The accounting policies adopted in the preparation of the interim condensed consolidated financial statements are consistent with those followed in the preparation of the Group's annual consolidated financial statements for the year ended 31 December 2025, except for the adoption of new standards effective as of 1 January 2026. The Group has not early adopted any standard, interpretation or amendment that has been issued but is not yet effective.

The following amendments apply for the first time in 2026 but does not have an impact on the interim condensed consolidated financial statements of the Group.

- Classification and Measurement of Financial Instruments - Amendments to IFRS 9 and IFRS 7
- Annual Improvements to IFRS accounting Standards - Volume 11
- Contracts Referencing Nature -dependent Electricity – Amendments to IFRS 9 and IFRS 7

The amendments had no impact on Group's interim consolidated condensed financial statements.

3.2 International Tax Reform—Pillar Two Model Rules – Amendments to IAS 12

The amendments to IAS 12 have been introduced in response to the OECD's BEPS Pillar Two rules and include:

- A mandatory temporary exception to the recognition and disclosure of deferred taxes arising from the jurisdictional implementation of the Pillar Two model rules; and
- Disclosure requirements for affected entities to help users of the financial statements better understand an entity's exposure to Pillar Two income taxes arising from that legislation, particularly before its effective date.

The mandatory temporary exception – the use of which is required to be disclosed – applied starting the year ended 31 December 2025. The remaining disclosure requirements apply for annual reporting periods beginning on or after 1 January 2023, but not for any interim periods ending on or before 31 December 2025.

As the Group's consolidated revenues are not more than the EUR 750 million threshold for any 2 out of the preceding 4 years, the Group is not within the scope of the Pillar Two model rules. The Group has performed an assessment of its potential exposure to Pillar Two income taxes based on financial information for the constituent entities in the Group. The Group continues to follow Pillar Two legislative developments, as further countries enact the Pillar Two model rules, to evaluate the potential future impact on its consolidated results of operations, financial position and cash flows.

There is uncertainty regarding whether the Pillar Two model rules create additional temporary differences, whether deferred taxes should be remeasured for the Pillar Two model rules, and which tax rate should be used to measure deferred taxes. In response to this uncertainty, the IASB and AASB issued amendments to IAS 12 'Income Taxes' on 23 May 2023 and 27 June 2023, respectively. These amendments introduce a mandatory temporary exception to the requirements of IAS 12, under which a company does not recognize or disclose information about deferred tax assets and liabilities related to the OECD/G20 BEPS Pillar Two model rules. The Group has not applied this temporary exception as of 30 September 2026 as Pillar Two rules are not applicable for the relevant financial year.

4 CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

The preparation of interim condensed consolidated financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

In preparing these interim condensed consolidated financial statements, the significant judgments made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those applied to the consolidated financial statements for the year ended 31 December 2025.

6 SEGMENT INFORMATION

For management purposes, the Group is organised into business units based on the products and services. The two reportable operating segments are as follows:

- The **Chilled Water** segment constructs, owns, assembles, installs, operates and maintains cooling and conditioning systems. In addition, the segment distributes and sells chilled water for use in district cooling systems.
- The **Value Chain Business** segment is engaged in various ancillary activities relating to the Group's chilled water business. These services consist of manufacturing of pre-insulated systems of pipes and fittings for applications involving the transport and distribution of hot and cold fluids, design and supervision of mechanical and electrical systems and its installations in buildings and specialized facilities.

Segment performance is evaluated based on operating profit or loss and is measured consistently with the Group's operating profit or loss in the interim condensed consolidated financial statements.

14 NON-CONVERTIBLE BONDS AND SUKUK (continued)

(i) Non-convertible bonds

During the year 2020, the Group issued 7-year investment grade bonds of US$ 500 million which are listed on the International Securities Market of London Stock Exchange. The bonds carry a coupon rate of 2.5% payable semi-annually. The bonds are repayable on 31 October 2027. The proceeds of the bonds were utilised to repay the previous term loan and to fund the future growth.

The bonds are stated net of discount and transaction costs incurred in connection with the bonds issuance, amounting to AED 4.9 million (2025: AED 8.1million), which are amortised over the repayment period of the bonds using effective interest rate method.

(ii) Green sukuk

During February 2025, the Group issued a non-convertible investment grade Islamic bond structured as Green Sukuk, with a senior structured green certificate status to finance environmentally sustainable projects of US$ 700 million equivalent to AED 2,570.75 million which is listed on the International Securities Market of London Stock Exchange. The Sukuk carries a profit rate of 5.279% payable semi-annually, repayable on 5 March 2030.

Sukuk is stated net of transaction costs incurred in connection with the Sukuk arrangements, amounting to AED 8 million (2025: AED 9.4 million), which are amortised to the interim consolidated statement of profit or loss over the repayment period of the sukuk using effective interest rate method.

Non-convertible bonds and sukuk are disclosed in the interim consolidated statement of financial position as follows:

20 SEASONALITY OF OPERATIONS

Interim results fluctuate due to the seasonal demands for chilled water, in line with the average temperatures in the region. Tabreed's operations generally produce higher revenues in the summer due to increased customer consumption, while certain expenses such as depreciation, interest and operating expenses remain more evenly distributed throughout the fiscal year. As a result, interim operational profits are not indicative of operational profits on an annual basis.

21 FAIR VALUE MEASUREMENT

Some of the Group's financial assets are measured at fair value at the end of the reporting period. The following table provides an analysis of financial instruments that are measured subsequent to initial recognition at fair value, grouped into Levels 1 to 3 based on the degree to which the fair value is observable and gives information about how the fair value of these financial assets are determined.

- Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities.
- Level 2: other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly.
- Level 3: techniques which use inputs which have a significant effect on the recorded fair value that are not based on observable market data.
