Introduction

We have reviewed the accompanying interim condensed consolidated statement of financial position of Watania International Holding (PJSC) (the "Company") and its subsidiaries (the "Group") as of 30 September 2026 and the related statements of comprehensive income, changes in equity and cash flows for the nine-month period then ended and material accounting policy information and other explanatory notes. Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity." A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim financial information is not prepared, in all material respects, in accordance with IAS 34.

2 Basis of preparation

The condensed interim consolidated financial information is for the nine-month period ended 30 September 2026 and is presented in United Arab Emirate Dirham (AED), which is also the functional currency of the Group. This condensed interim consolidated financial information has been prepared in accordance with IAS 34 'Interim Financial Reporting' and complies with the applicable requirements of the laws in the U.A.E. The condensed consolidated interim financial information does not include all the information required in annual financial information in accordance with IFRS Accounting Standards ("IFRS") and should be read in conjunction with the consolidated financial statements of the Group for the year ended 31 December 2025. Further, results for interim periods are not necessarily indicative of the results that may be expected for the financial year ending 31 December 2026.

The Group presents its condensed interim consolidated statement of financial position broadly in order of liquidity, with a distinction based on expectations regarding recovery or settlement within twelve months after the reporting date (current) and more than twelve months after the reporting date (non-current). However, the following balances would generally be classified as current: Cash and cash equivalents, prepayments and other receivables, Trade and other payables. 2 Basis of preparation (continued)

Basis of consolidation

The condensed interim consolidated financial information comprise the financial information of the Company and its subsidiaries as at 30 September 2026.

Control is achieved when the Company is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Company controls an investee if, and only if, the Company has:

- power over the investee (i.e., existing rights that give it the current ability to direct the relevant activities of the investee);
- exposure, or rights, to variable returns from its involvement with the investee; and
- the ability to use its power over the investee to affect its returns.

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Company has less than a majority of the voting or similar rights of an investee, the Company considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- the contractual arrangement with the other vote holders of the investee
- rights arising from other contractual arrangements
- the Company's voting rights and potential voting rights

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

If the Company loses control over a subsidiary, it derecognises the related assets (including goodwill), liabilities, non-controlling interest and other components of equity while any resultant gain or loss is recognised in profit or loss. Any investment retained is recognised at fair value.

4 Critical accounting estimates and judgments in applying accounting policies

The preparation of this condensed interim consolidated financial information requires management to make judgements, estimates and assumptions that effect the application of accounting policies and the reported amounts of assets and liabilities, income, and expense. Given the evolving nature of these events, Management will continue to monitor developments and assess any potential implications for the Group's operations, financial position, and financial performance.

21 Fair value measurements

Financial assets measured at fair value in the statement of financial position are grouped into three levels of a fair value hierarchy. This grouping is determined based on the lowest level of significant inputs used in fair value measurement, as follows:

- Level 1 – quoted prices (unadjusted) in active markets for identical assets;
- Level 2 – inputs other than quoted prices included within Level 1 that are observable for the asset or; liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- Level 3 – inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The table below analyses financial instruments measured at fair value at the end of the reporting period, by the level in the fair value hierarchy into which the fair value measurement is categorised:
