REPORT ON REVIEW OF INTERIM FINANCIAL INFORMATION TO THE BOARD OF DIRECTORS OF PALMS SPORTS P.J.S.C.

Introduction

We have reviewed the accompanying interim condensed consolidated statement of financial position of Palms Sports P.J.S.C. ("the Company") and its subsidiaries (together, "the Group") as of 30 September 2026 and the related statement of profit or loss and other comprehensive income for the three-months and nine-months period then ended, and the related statements of changes in equity and cash flows for the nine-month period then ended and selected explanatory notes. Management is responsible for the preparation and fair presentation of this interim financial information in accordance with International Accounting Standard 34 Interim Financial Reporting ("IAS 34"). Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim financial information is not prepared, in all material respects, in accordance with IAS 34.

Other Matter

The consolidated financial statements of the Group for the year ended 31 December 2025 and the interim financial information for the nine-month period ended 30 September 2025 were audited and reviewed respectively by another auditor who expressed an unmodified opinion on those statements and an unmodified conclusion on that information on 20 January 2026 and 20 October 2025 respectively.

3 Summary of material accounting policy information

Basis of preparation

Statement of compliance

The interim condensed consolidated financial statements for the nine-month ended 30 September 2026 have been prepared in accordance with International Accounting Standard (“IAS”) 34 Interim Financial Reporting and also comply with the applicable requirements of the laws in the United Arab Emirates,

The interim condensed consolidated financial statements do not include all information and disclosures required in the annual consolidated financial statements prepared in accordance with International Financial Reporting Standards and should be read in conjunction with the Group’s annual consolidated financial statements for the year ended 31 December 2025. In addition, results for the nine-month period ended 30 September 2026 are not necessarily indicative of the results that may be expected for the year ending 31 December 2026.

These interim condensed consolidated financial statements have been prepared on historical cost basis, except for investments in financial assets carried at fair value through other comprehensive income and investments carried at fair value through profit or loss which are stated at fair value.

The interim condensed consolidated financial statements are presented in United Arab Emirates Dirham (AED), which is the presentation currency of the Group and the functional currency of the Company.

**Notes to the interim condensed consolidated financial statements
for the nine-month period ended 30 September 2026 (continued)****3 Summary of material accounting policies (continued)****Basis of preparation (continued)****Basis for consolidation**

The interim condensed consolidated financial statements of the Group comprise the financial information of the Company and its subsidiaries.

Control is achieved when the Group:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

When the Group has less than a majority of the voting rights of an investee, it has power over the investee when the voting rights are sufficient to give it the practical ability to direct the relevant activities of the investee unilaterally.

The Group considers all relevant facts and circumstances in assessing whether or not the Group's voting rights in an investee are sufficient to give it power, including:

- the size of the Group's holding of voting rights relative to the size and dispersion of holdings of the other vote holders
- potential voting rights held by the Group, other vote holders and other parties;
- rights arising from other contractual arrangements; and
- any additional facts and circumstances that indicate that the Group has, or does not have, the current ability to direct the relevant activities at the time that decisions need to be made, including voting patterns at previous shareholders' meeting.

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the period are included in the interim condensed consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income (OCI) are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies.

All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between member of the Group are eliminated in full on consolidation. A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

Notes to the interim condensed consolidated financial statements for the nine-month period ended 30 September 2026 (continued)

3 Summary of material accounting policies (continued)

Basis of preparation (continued)

Basis for consolidation (continued)

When the Group loses control of a subsidiary, a gain or loss is recognised in profit or loss and is calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest and (ii) the previous carrying amount of the assets and liabilities of the subsidiary and any non-controlling interests. All amounts previously recognised in other comprehensive income in relation to that subsidiary are accounted for as if the Group had directly disposed of the related assets or liabilities of the subsidiary (i.e. reclassified to profit or loss or transferred to another category of equity as specified/permitted by applicable IFRSs). The fair value of any investment retained in the former subsidiary at the date when control is lost is regarded as the fair value on initial recognition for subsequent accounting under IFRS 9, when applicable, the cost on initial recognition of an investment in an associate or a joint venture.

All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

Significant accounting estimates and judgements

The preparation of the interim condensed consolidated financial statements in conformity with the International Financial Reporting Standards requires management to make judgment, estimates and assumptions that affect the application of accounting policies and reported amounts of financial assets and liabilities and the disclosure of contingent liabilities. These judgments, estimates and assumptions also affect the revenue, expenses, and provisions as well as fair value changes. Actual results may differ from these estimates.

These judgments, estimates and assumptions may affect the reported amounts in subsequent financial years. Estimates and judgments are currently evaluated and are based on historical experience and other factors.

In preparing these interim condensed consolidated financial statements, the significant judgments made by management in applying the Group's accounting policies and the key sources of estimation uncertainty are the same as those applied in the consolidated financial statements as at and for the year ended 31 December 2025.

Unquoted and inside the UAE	7,323,913	9,824,712

The investment is in a fund created by a related party, against a total commitment of USD 5,000,000 (2025: USD 5,000,000). This investment in equity instrument is not held for trading. Instead, it is held for long-term strategic purpose. Accordingly, management of the Group has elected to designate the investment as equity instrument at FVTOCI, as they believe that recognising short-term fluctuations would not be consistent with the Group's strategy of holding the investment for long-term purposes and realising the performance potential in the long run.

The investments are recorded at fair value using the valuation techniques as disclosed in note 25. Movement in investment in financial assets carried at fair value through other comprehensive income is as follows:

	30 September 2026 AED (unaudited)	31 December 2025 AED (audited)

Quoted and inside the UAE	63,438,630	66,881,440

These investments in equity instruments are held for trading with an intention of recognising short-term fluctuations in these investments. Fair values of the quoted investments are determined by reference to published price quotations in an active market. These investments are made in diversified industries which include investment, oil and gas, technology and healthcare.

The sensitivity analyses have been determined based on the exposure to equity price risks at the end of the reporting period. If equity prices had been 1% higher/lower, profit or loss for the period would have been higher/lower by AED 634,386 higher/lower.

The investments are recorded at fair value using the valuation techniques as disclosed in note 25. Movement in investment in financial assets carried at fair value through profit and loss is as follows:

	30 September 2026 AED (unaudited)	31 December 2025 AED (audited)

As of 30 September 2026, the Group has not issued any dilutive instruments that have an impact on earnings per share when exercised.

22 Segment reporting

Segments were identified based on the Group's internal reporting and how the Chief Operating Decision Maker ("CODM") assesses the performance of the business. The Group has two reportable segments listed below.

Income from guarding and cleaning services includes provision of services of security guards and onshore and offshore oil cleaning services to its customer.

Income from coaching and training services includes providing specialized sports training services with regards to Jiu-Jitsu, mixed martial arts and combat sports.

Income from educational services includes providing educational services, management of educational institutions.

Others includes IT research and physiotherapy treatment services.

The Chief Operating Decision Makers (CODM) monitor the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on profit or loss and is measured consistently with profit or loss in the interim condensed consolidated financial statements.

25 Fair values of financial instruments

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs. All assets and liabilities for which fair value is measured or disclosed in the interim condensed consolidated financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities;
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable;
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

The following table gives information about how the fair value of the Group's assets are determined.

	Fair value as at				
	30 September 2026 AED	31 December 2025 AED	Fair value hierarchy	Valuation techniques and key inputs	Relationship of unobservable inputs to fair value
Financial assets					
Quoted equity investments – investment in financial assets	63,438,630	66,881,440	Level 1	Quoted bid prices in an active market.	Not applicable
Unquoted equity investments – investment in financial assets at fair value through comprehensive income	7,323,913	9,824,712	Level 3	Net assets value - Discounted cash flow method and latest transaction price of underlying investments	Higher long term growth rate for cashflows for subsequent years, higher the fair value. Higher WACC and discount rate, lower the fair value.

There were no transfers between each of levels during the period. There are no financial liabilities which should be measured at fair value and accordingly no disclosure is made in the above table.

**Notes to the interim condensed consolidated financial statements
for the nine-month period ended 30 September 2026 (continued)****26 Seasonality of results**

The nature of Group's business is such that the income and expenditure are incurred in a manner, which is not impacted by any forms of seasonality. These interim condensed consolidated financial statements were prepared based upon accrual concept, which requires income and expenses to be recorded as earned or incurred and not as received or paid throughout the period.

27 Geopolitical events

During the reporting period, geopolitical tensions in the Middle East had escalated following a conflict involving the certain countries. As at the date of authorisation of these financial statements, management is actively monitoring the situation. The evolving geopolitical conditions present heightened risks related to regional security, logistics, energy supply, and insurance coverage, which may potentially affect operational continuity. However, as of the reporting date, no disruptions to operations within the United Arab Emirates have been identified by management.

Given the rapidly changing circumstances, it is currently not possible to reliably estimate any potential financial impact. Management will continue to closely monitor the situation and assess any implications for the Company's operations, financial position, and financial performance.

28 Approval of the condensed financial statements

The condensed financial statements were approved by the Board of Directors and authorised for issue on 21 October 2026.
