State of Kuwait

Introduction

We have reviewed the accompanying interim condensed consolidated statement of financial position of JTC Logistics Transportation & Stevedoring Company K.S.C.P. Management of the Parent Company is responsible for the preparation and presentation of this interim condensed consolidated financial information in accordance with International Accounting Standard 34, "Interim Financial Reporting". Our responsibility is to express a conclusion on this interim condensed consolidated financial information based on our review.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information performed by the Independent Auditor of the Entity". A review of interim condensed financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial information is not prepared, in all material respects, in accordance with International Accounting Standard 34.

Report on Other Legal and Regulatory Requirements

Furthermore, based on our review, the interim condensed consolidated financial information is in agreement with the books of account of the Parent Company. We further report that, to the best of our knowledge and belief, we have not become aware of any violations of the Companies Law No. 1 of 2016 and its Executive Regulations, as amended, or of the Parent Company's Memorandum of Incorporation and Articles of Association, as amended, during the nine-month period ended September 30, 2026 that might have had a material effect on the business of the Parent Company or on its financial position.

RSM Albazie & Co. is a member of the RSM network and trades as RSM. RSM is the trading name used by the members of the RSM network. Each member of the RSM network is an independent accounting and consulting firm which practices in its own right. The RSM network is not itself a separate legal entity in any jurisdiction.

We further report that, during the course of our review, to the best of our knowledge and belief, we have not become aware of any violations of Law No. 7 of 2010 concerning the Capital Markets Authority and its Executive Regulations, as amended, during the nine-month period ended September 30, 2026, that might have had a material effect on the business of the Parent Company or on its financial position.

8. Taxation

'Pillar 2 Income Taxes'

In 2021, OECD's Inclusive Framework (IF) on Base Erosion and Profit Shifting (BEPS) had agreed to a two-pillar solution in order to address tax challenges arising from digitalization of the economy. Under Pillar 2, multinational entities (MNE Group) whose revenue exceeds EUR 750 million are liable to pay corporate income tax at a minimum effective tax rate of 15% in each jurisdiction they operate. The State of Kuwait in which the Group operates has joined the IF. Currently the Group's revenue does not exceed EUR 750 million but may be exposed to the global minimum tax by virtue of the Parent Company which is domiciled and operating in the State of Kuwait. On December 31, 2024, the State of Kuwait enacted Law No. 157 of 2024 (the "Law"), introducing a Domestic Minimum Top-Up Tax ("DMTT") effective from 2025 on entities which are part of MNE Group with annual revenues of EUR 750 million or more. The Law provides that a top-up tax shall be payable on the taxable income at a rate equal to the difference between 15% and the effective tax rate of all constituent entities of the MNE Group operating within Kuwait. The Law effectively replaces the existing National Labour Support Tax (NLST) and Zakat tax regimes in Kuwait for MNEs within the scope of this Law. The taxable income and effective tax rate shall be computed in accordance with the Executive regulations which were issued on June 29, 2025. During the period ended September 30, 2026, the Group had accounted for a provision of KD 185,200 (December 31, 2025: KD 451,760, September 30, 2025: KD 396,125) based on the initial assessment for DMTT, as allocated by the Ultimate Parent Company within "general and administrative expenses" in the interim condensed consolidated statement of profit or loss.

There are no potential dilutive ordinary shares to be issued. Basic and diluted earnings per share attributable to shareholders of the Parent Company are computed by dividing the profit for the period attributable to shareholders of the Parent Company by the weighted average number of shares outstanding during the period:

	Three months ended September 30,		Nine months ended September 30,	
	2026	(Restated)* 2025	**2026**	(Restated)* 2025
Profit for the period attributable to shareholders of the Parent Company	**959,568**	1,639,978	**4,086,484**	5,219,506
	Shares	Shares	**Shares**	Shares
Number of issued and fully paid-up shares at the beginning of the period	**150,000,000**	150,000,000	**150,000,000**	150,000,000
Add: bonus shares (Note 5)	**15,000,000**	15,000,000	**15,000,000**	15,000,000
Weighted average number of shares outstanding during the period	**165,000,000**	165,000,000	**165,000,000**	165,000,000

13. Outbreak of geopolitical conflict

The Group offers a diverse range of logistics services, including port management, equipment leasing, contract logistics, and warehousing. The logistics sector is directly affected by regional and global trade activity, supply chain movements, and general economic conditions. During the current period, regional geopolitical developments have impacted trade flows, shipping patterns, supply chain activity, and demand for logistics services, resulting in variations in cargo volumes, operational activity, and asset utilization rates in some business segments.

Management has assessed this impact on the Group's operations and financial position and has observed changes in operating conditions, including fluctuations in shipping and logistics volumes, increased operating costs due to inflationary pressures, and pricing pressures in some segments due to lower asset utilization rates and prevailing market conditions.

Despite these challenges, the Group has demonstrated high resilience and a high degree of flexibility thanks to its diversified asset model, broad service portfolio, and established customer base. The Group continues to improve the efficiency of its operational resources and implement cost management initiatives to adapt to changing market conditions. While some asset segments experienced fluctuations in trading volumes and profit margins, the diversification of the Group's portfolio has strengthened its business continuity and there are no significant indications of impairment of property and plant, investment properties, or other assets beyond the amounts included in the condensed consolidated interim financial information for the current period have been identified.

The Group also continues to maintain adequate liquidity levels and secure access to financing facilities. Accordingly, management has concluded that the going concern assumption remains valid and appropriate. Given the dynamic and changing nature of market conditions regionally and globally, the Group will continue to closely monitor developments and assess any potential significant impact on its operations and financial position.
