REPORT ON REVIEW OF INTERIM CONDENSED CONSOLIDATED FINANCIAL INFORMATION TO THE BOARD OF DIRECTORS OF WARBA INSURANCE AND REINSURANCE COMPANY K.S.C.P.

Introduction

We have reviewed the accompanying interim condensed consolidated statement of financial position of Warba Insurance and Reinsurance Company K.S.C.P. (the "Parent Company") and its subsidiary (collectively, "the Group") as at 30 September 2026, and the related interim condensed consolidated statements of profit or loss and comprehensive income for the three-month and nine-month periods then ended, and the interim condensed consolidated statements of changes in equity and cash flows for the nine-month period then ended. Management of the Parent Company is responsible for the preparation and presentation of this interim condensed consolidated financial information in accordance with International Accounting Standard 34: *Interim Financial Reporting* ("IAS 34"). Our responsibility is to express a conclusion on this interim condensed consolidated financial information based on our review.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, "*Review of Interim Financial Information Performed by the Independent Auditor of the Entity*". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial information is not prepared, in all material respects, in accordance with IAS 34.

Report on Other Legal and Regulatory Requirements

Furthermore, based on our review, the interim condensed consolidated financial information is in agreement with the books of account of the Parent Company. We further report that, to the best of our knowledge and belief, we have not become aware of any violations of the Companies Law No. 1 of 2016, as amended, and its executive regulations, or of the Parent Company's Memorandum of Incorporation and Articles of Association, as amended, during the nine-month period ended 30 September 2026 that might have had a material effect on the business of the Parent Company or on its financial position.

We further report that, during the course of our review, to the best of our knowledge and belief, we have not become aware of any violations of the provisions of Law No. 7 of 2010 concerning the establishment of the Capital Markets Authority ("CMA") and the organisation of securities activities, and its executive regulations, as amended, during the nine-month period ended 30 September 2026 that might have had a material effect on the business of the Parent Company or on its financial position.

1 CORPORATE INFORMATION

The interim condensed consolidated financial information of Warba Insurance and Reinsurance Company K.S.C.P. (the "Parent Company") and its subsidiary (collectively, the "Group") for the nine months ended 30 September 2026 was authorised for issue in accordance with a resolution of the board of directors of the Parent Company on 8 November 2026.

The shareholders of the Parent Company at the annual general assembly meeting ("AGM") held on 25 March 2026 approved the consolidated financial statements for the year ended 31 December 2025. Dividends proposed and paid by the Group for the year then ended are provided in Note 11.

The Parent Company was incorporated as a Public Kuwaiti Shareholding Company in the State of Kuwait in accordance with the Amiri Decree of October 24, 1976.

The primary objectives of the Parent Company are to underwrite life and non- life insurance risks such as fire, general accidents, marine and aviation and others; lend funds which resulted from issuance of insurance policies and to invest in permitted securities.

During the period, the Parent Company subscribed to an increase of KD 700,000 in the share capital of its subsidiary, WAPMED TPA Services Company K.S.C.C. The change in the Group's ownership interest, without loss of control, was accounted for as an equity transaction, resulting in a decrease of KD 52,662 in other reserve and a corresponding increase in non-controlling interests.

2.1 BASIS OF PREPARATION AND CHANGES TO THE GROUP'S ACCOUNTING POLICIES

The interim condensed consolidated financial information for the nine months ended 30 September 2026 has been prepared in accordance with International Accounting standard 34 "*Interim Financial Reporting*".

The Group has prepared the interim condensed consolidated financial information on the basis that it will continue to operate as a going concern.

The interim condensed consolidated financial information do not include all the information and disclosures required in the annual consolidated financial statements, and should be read in conjunction with the Group's annual consolidated financial statements as at 31 December 2025.

2.2 NEW STANDARDS, INTERPRETATIONS AND AMENDMENTS ADOPTED BY THE GROUP

The accounting policies adopted in the preparation of the interim condensed consolidated financial information are consistent with those followed in the preparation of the Group's annual consolidated financial statements for the year ended 31 December 2025, except for the adoption of new amendments to IFRS Accounting Standards effective as of 1 January 2026.

The Group has not early adopted any standard, interpretation or amendment that has been issued but is not yet effective.

Classification and Measurement of Financial Instruments – Amendments to IFRS 9 and IFRS 7
In May 2024, the IASB issued Amendments to IFRS 9 and IFRS 7, Amendments to the Classification and Measurement of Financial Instruments (the Amendments). The Amendments include:

- Clarifications of the requirements for recognition and derecognition of financial assets and financial liabilities. In particular, a financial liability is derecognised on the 'settlement date' and an accounting policy choice is introduced (if specific conditions are met) to derecognise financial liabilities settled using an electronic payment system before the settlement date.
- Additional guidance on how the contractual cash flows for financial assets with environmental, social and corporate governance (ESG) and similar features should be assessed.
- Clarifications on what constitute 'non-recourse features' and what are the characteristics of contractually linked instruments.
- The introduction of disclosures for financial instruments with contingent features and additional disclosure requirements for equity instruments classified at fair value through other comprehensive income (OCI).

The amendments did not have a material impact on the Group's interim condensed consolidated financial information.

Other amendments and improvements to IFRS Accounting Standards which are effective for annual accounting period starting from 1 January 2026 did not have any material impact on the accounting policies, financial position or performance of the Group.

5 BASIC AND DILUTED EARNINGS PER SHARE (EPS)

Basic EPS amounts are calculated by dividing the profit for the period attributable to equity holders of the Parent Company by the weighted average number of ordinary shares outstanding during the period (excluding treasury shares). Diluted EPS is calculated by dividing the profit attributable to ordinary equity holders of the Parent Company by the weighted average number of ordinary shares outstanding during the period (excluding treasury shares) plus the weighted average number of ordinary shares that would be issued on conversion of all the dilutive potential ordinary shares into ordinary shares. As there are no dilutive instruments outstanding, basic and diluted earnings per share are identical.

Legal contingencies

The Group has outstanding legal case, where the customer is claiming an amount of KD 1.8 million. A preliminary verdict has been issued in the Group's favor rejecting the customer's claim. The customer appealed on 15 July 2019, and the appeal verdict issued on 13 January 2021 was in favor of the Group as well. The customer filed an appeal before the Court of Cassation who then transferred the case to the Court of First Instance.

On 24 July 2023, a preliminary verdict was issued in favor of the customer. The Group appealed the verdict, and a hearing was scheduled on 13 November 2023 which was then transferred to the Department of Experts in the Ministry of Justice on 13 May 2025, then scheduled for a hearing on 16 September 2025 then it was rescheduled to 26 October 2025 to hear the expert committee conclusion. On 26 October the expert committee concluded that the total amount due from Parent Company is KD 106,214. After settling the accounts, the committee confirmed that the Parent Company remains liable for the same amount: KD 106,214, on 23 June 2026 the final verdict was issued against the company, and an amount of KD 106,214 was paid to the ministry of justice on 02 July 2026.

Further, during the period ended 30 September 2026, based on the latest Ministry of Justice case status obtained, the case file was closed on 5 July 2026 and subsequently reopened on 6 July 2026. Subsequently, the case was registered with the Administrative Chamber of Cassation under Case No. 1607 of 2026 on 17 August 2026, followed by an announcement in a session on 19 August 2026, the legal counsel advised the based on the final verdict issued the parent company will not be liable for any claim. The Group maintains a provision of KD 300,000 in respect of this case, which management, based on independent legal advice, considers adequate. The maximum exposure to the Group is the claimed amount of KD 1.8 million, together with legal interest at the rate of 7% annually, less the amount already settled.

The Group quoted shares with a carrying value of KD 5,795,572 (31 December 2025: KD 5,918,173 and 30 September 2025: KD 6,073,330) are subject to a lien in favour of the Insurance Regulatory Unit ("IRU").

The Group is subject to litigation in the normal course of its business. The Group, based on independent legal advice, does not believe that the outcome of these legal cases will have a material impact on the Group's interim condensed consolidated financial information.

15 FAIR VALUE MEASUREMENT

Financial instruments comprise of financial assets and financial liabilities.

Financial assets consist of investment assets, term deposits, cash and cash equivalent and other assets. Financial liabilities consist of term loans and other liabilities.

The fair values of financial instruments that are not measured at fair value, principally term deposits, other assets, term loans and other liabilities, are not materially different from their carrying values due to their short-term nature or floating interest rates. The Group uses the following hierarchy for determining and disclosing the fair values of financial instruments by valuation technique:

- Level 1: quoted (unadjusted) prices in an active market for identical assets and liabilities.
- Level 2: other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly; and
- Level 3: other techniques which use inputs which have a significant effect on the recorded fair value are not based on observable market data.

15 FAIR VALUE MEASUREMENT (continued)

During the period ended 30 September 2026, there were no transfers between Level 1, Level 2 and level 3 fair value measurements, and no transfers into and out of Level 3 fair value measurements. The fair values of financial assets and liabilities not carried at fair value, including term deposits, are not materially different from their carrying values at the reporting date.

The following table provides the fair value measurement hierarchy of the Group's assets carried at fair value.

Reconciliation of recurring fair value measurement categorized within level three of the fair value hierarchy:
Set out below are the significant unobservable inputs to valuation as at 30 September 2026:

	Valuation technique	***Significant unobservable inputs***	***Range***	***Sensitivity of the input to fair value***
Unquoted equity securities	Price to book value	Discount for lack of marketability (DLOM)	10%	An increase or (decrease) by 10% in the discount for lack of marketability would result in (decrease) or increase in fair value by KD 160 thousand.
Unquoted equity securities	Price to book value	Price to book multiple "Represents amounts used when the Group has determined that market participants would use such multiples when pricing the investments"	10%	An increase or (decrease) by 10% in the price to book multiple would result in increase or (decrease) in fair value by KD 144 thousand.

Unquoted debt securities classified within level 3 are valued using a yield-based approach, applying a credit spread over the benchmark rate determined at the most recent annual valuation and updated for changes in market interest rates and issuer credit quality. an increase (decrease) of 100 basis points in the credit spread would result in a decrease (increase) in their fair value of KD 3 thousand (31 December 2025: KD 3 thousand).

16 IMPACT OF GEOPOLITICAL ESCALATION RISK AND RELATED UNCERTAINTY

The Group operates in a global and regional economic environment that continues to be affected by heightened geopolitical tensions in the Middle East. Recent developments in the region have increased uncertainty in financial markets, energy supply and costs, regional security conditions, and global trade routes. The wider regional impact of these events may affect economic conditions relevant to various sectors. Management has assessed the potential impacts of the geopolitical situation on the Group's operations and financial position, taking into consideration:

- Macroeconomic conditions, including inflationary pressures, interest rate volatility, and economic growth trends that may influence cost of claims and reserving.
- Market liquidity risk, including the ability to realise investments at quoted or observable market prices in periods of heightened volatility.
- Counterparty and credit risk, particularly for investments in debt instruments, funds, or structured products and reinsurance whose underlying counterparties may be affected by adverse economic conditions.
- Foreign exchange risk, arising from increased currency volatility in markets linked to the region.

As at the reporting date, the Group has not experienced any material disruption. Most of the issued policies come with a standard war exclusion clause. Policies providing war cover are substantially reinsured, and the Group's retained exposure under these policies is not significant that policies under, marine segment which is the reason for increase of premium and ceded to reinsurance. Accordingly, management has not identified any material adverse impacts on the core business or valuation of the property or investment portfolios that require specific adjustment beyond those reflected in observable market prices and valuation inputs.

In assessing the carrying values of non-financial assets, management has not identified any indicators of impairment requiring recognition at the reporting date. However, future adverse developments in the geopolitical environment may result in changes to key valuation assumptions.

The Group maintains liquidity buffers and capital resources that management considers sufficient to meet its commitments and operating expenses as they fall due. The Group has assessed the potential impact of adverse market movements on its ability to realise investments or access funding, including under stressed market scenarios. No breaches of liquidity thresholds, investment restrictions, or capital management policies were identified as at the reporting date.

Management has also considered the impact of these events on the Group's ability to continue as a going concern and concluded that the going concern basis remains appropriate. The geopolitical situation remains dynamic, and the extent and duration of potential impacts on global financial markets are uncertain. Management continues to monitor developments closely and will reflect any material impacts in future valuations, risk disclosures, and financial reporting as appropriate.
