Report on Review of Interim Condensed Consolidated Financial Information

To the board of directors of
Arzan Financial Group for Financing and Investment - KPSC
Kuwait

Introduction

We have reviewed the accompanying interim condensed consolidated statement of financial position of Arzan Financial Group for Financing and Investment - KPSC ("the Parent Company") and its subsidiaries ("the Group") as of 30 September 2026 and the related interim condensed consolidated statements of profit or loss, profit or loss and other comprehensive income for the three-month and nine-month periods then ended and, interim condensed consolidated changes in equity and cash flows for the nine-month period then ended. Management is responsible for the preparation and presentation of this interim condensed consolidated financial information in accordance with the basis of presentation set out in Note 2. Our responsibility is to express a conclusion on this interim condensed consolidated financial information based on our review.

Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity." A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial information is not prepared, in all material respects, in accordance with the basis of preparation set out in Note 2.

Emphasis of Matter

We draw attention to Note 5.1 to the interim condensed consolidated financial information, which describes the possible material effects of uncertainty with respect to the Group's exposure in Lebanon. Our conclusion is not modified in respect of this matter.

Report on review of other legal and regulatory requirements

Based on our review, the interim condensed consolidated financial information is in agreement with the books of the Parent Company. We further report that, to the best of our knowledge and belief, no violations of the Companies Law No.1 of 2016 and its Executive Regulations, or of the Parent Company's Memorandum of Incorporation and Articles of Association, as amended, have occurred during the nine-month period ended 30 September 2026 that might have had a material effect on the business or financial position of the Parent Company.

2 Basis of preparation and presentation

The interim condensed consolidated financial information of the Group for the nine-month period ended 30 September 2026 has been prepared in accordance with International Accounting Standard 34 "Interim Financial Reporting".

The annual consolidated financial statements for the year ended 31 December 2025 were prepared in accordance with the IFRS Accounting Standards ("IFRS Accounting Standards") as issued by the International Accounting Standards Board ("IASB"), modified for use by the Government of Kuwait for financial services institutions regulated by the Central Bank of Kuwait ("CBK"). The modification requires adoption of all IFRS Accounting Standards for such institutions except for the IFRS 9 requirement for estimated credit losses ("ECL") for loans and receivables, which has been replaced by the CBK requirement for the ECL to be measured at the higher of the ECL on credit facilities computed under IFRS 9 under CBK guidelines and the provision required under CBK instructions, and the consequent impact on the related disclosures.

The interim condensed consolidated financial information has been presented in Kuwaiti Dinars (KD), which is the functional and presentation currency of the Parent Company.

The interim condensed consolidated financial information does not include all the information and disclosures required for complete financial statements prepared in accordance with the IFRS Accounting Standards. In the opinion of the Parent Company's management, all adjustments consisting of normal recurring accruals considered necessary for a fair presentation have been included.

Operating results for the nine-month period ended 30 September 2026 are not necessarily indicative of the results that may be expected for the financial year ending 31 December 2026. For further details, refer to the consolidated financial statements and their disclosures for the year ended 31 December 2025.

3 Changes in accounting policies

The accounting policies used in the preparation of these interim condensed consolidated financial information are consistent with those used in the preparation of the annual consolidated financial statements for the year ended 31 December 2025, except for the adoption of the amendments to the IFRS Accounting Standards effective as of 1 January 2026 as described in Note 3.1. The Group has not early adopted any standard, interpretation or amendment that has been issued but is not yet effective.

3.1 New and amended IFRS Accounting Standards adopted by the Group

The following amendments were effective for the current period:

IFRS 7 and IFRS 9 Classification and Measurement of Financial Instruments - Amendments

The amendments to IFRS 7 and IFRS 9 addresses three change and are required to apply the amendments retrospective without restating prior periods to reflect the application of the amendments, but may do so if, and only if, it is possible to do so without the use of hindsight.

a) Derecognition of a financial liability settled through electronic transfer whereby entities are permitted to deem a financial liability (or part of it) that will be settled in cash using an electronic payment system to be discharged before the settlement date if specified criteria are met. An entity that elects to apply this derecognition option would be required to apply it to all settlements made through the same electronic payment system.
b) Classification of financial assets based on a) contractual terms that are consistent with basic lending arrangements, b) assets with non-recourse description has been enhanced to include a financial asset has non-recourse features if an entity's ultimate right to receive cash flows is contractually limited to the cash flows generated by specified assets, and c) contractually linked instruments have been clarified, and
c) Disclosures relating to a) financial assets at FVTOCI where entities are required to disclose fair value gain or loss separately for financial assets derecognised in the period and the fair value gain or loss that relates to investments held at the end of the period, and b) contractual terms that could change the timing or amount of contractual cash flows on the occurrence (or non-occurrence) of a contingent event that does not relate directly to changes in a basic lending risks and costs.

The adoption of the amendments did not have a significant impact on the Group's interim condensed consolidated financial information.

Annual Improvements to IFRS Accounting Standards – volume 11

The annual improvement project updates a number of standards primarily providing clarifications and removing inconsistencies.

The adoption of the amendments did not have a significant impact on the Group's interim condensed consolidated financial information.

4 Judgement and estimates

The preparation of interim condensed consolidated financial information requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

In preparing this interim condensed consolidated financial information, the significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the annual audited consolidated financial statements as at and for the year ended 31 December 2025.

5 Subsidiaries

5.1 The Group's subsidiary, International Finance Company - SAL ("IFC"), is located in Lebanon which is currently witnessing significant economic and political turmoil. These events include significant controls on the Lebanese banking system including placing limits on cash withdrawals of foreign currency bank balances, limits on international bank transfers and reduction of contracted interest rates on foreign currency term deposits. These measures have significantly curtailed the ability of the Group to access the cash and other assets of IFC. Moreover, the Government of Lebanon defaulted on its sovereign debt obligation. The rating agencies have downgraded the sovereign rating of Lebanon as well as some of Lebanese banks including the bank where the subsidiary's cash is primarily deposited. Furthermore, the economy of Lebanon is now considered a hyperinflationary economy.

Further, due to the current economic conditions, the subsidiary has ceased its new lending operations and in the process of monitoring the business activities closely.

Management has assessed the potential effects of these events on its ability to continue to exercise control over IFC Lebanon and concluded that it still has the power and ability to use that power to affect returns and that it is still exposed to variable returns of the subsidiary. Accordingly, it continues to consolidate the subsidiary.

Certain assets in that same subsidiary decreased in value when converted to Kuwaiti Dinars (mainly: restricted cash and cash equivalents in Lebanese Lira), which were previously fully provided for (total provision of KD 6,420,471 was recognized at that time and accumulated at the consolidation level). This decrease in value, resulted in decrease in the provision balance against these assets. This decrease in provision amounting to KD 11,352 was recognized as "reversal of provision for credit losses of restricted cash and cash equivalents" (31 December 2025: a provision of KD1,848 and 30 September 2025: provision of KD 399) (Note 7.2.1).

Furthermore, and because the subsidiary in Lebanon holds monetary assets (mainly: bank balances and other assets) in foreign currencies significantly higher than its liabilities in foreign currencies, and due to the official devaluation of the LP, this resulted in a foreign currency exchange loss of KD 27,963 (31 December 2025: loss of KD76,329 and 30 September 2025: loss of KD51,015) recognized in the interim condensed consolidated statement of profit or loss for the period.

The Group's management believes that the carrying value of the Group's investment in Lebanon is recoverable and there are currently no indications that any further material additional impairment loss is required to be recognised.

Summarised financial information of IFC Lebanon as at and for the period ended 30 September 2026 is set out below:

Consequently, the Group lacks access to these bank balances on time and in full. The balance of cash and cash equivalents restricted in Lebanon was decreased and the Group recognised a reversal of provision for credit losses of KD 11,352 (31 December 2025: a provision of KD 1,848 and 30 September 2025: a reversal of provision of KD 399) against these restricted cash and cash equivalents of its subsidiary "IFC Lebanon" (Note 5.1).

a) Comparative information

During the 1st quarter of 2025, following the appointment of the Parent Company's representations in the board of directors of International Financial Advisors Holding – KPSC ("IFA Holding") the Parent Company has gained significant influence over IFA Holding, as defined under IAS 28. Consequently, the Group's 18.68% ownership in IFA Holding, which was originally classified as financial assets at FVTPL and financial assets at FVTOCI (Note 9.3 & 12.2) was reclassified to investment in associate at its fair value of KD35,069,289 on the reclassification date.

During the last quarter of the previous year, and within the one-year measurement period from the reclassification date, the Group finalised the purchase price allocation which was reported provisionally as of 30 September 2025. The updated assessment resulted in adjustments to the fair values of identifiable net assets and in recognition of a bargain purchase gain amounting to KD14,081,283 recorded in consolidated statement of profit or loss instead of the initially recognised provisional goodwill of KD13,263,579.

The summarised financial information of IFA Holding below, represents the amounts presented in the consolidated financial statements of the associate (and not the Group's share of those amounts) as of the date of reclassification based on the revised purchase price allocation.

	IFA Holding KD
Total assets	289,557,519
Total liabilities	22,266,936
Equity	267,290,583
Non-controlling interests	(4,946,424)
Equity attributable to the owners of the associate	262,344,159
Fair value of investment	35,473,822
Share of net assets	(49,555,105)
Gain on bargain purchase (Included within share of results)	(14,081,283)

Further, the Group has recognised an adjustment of KD6,323,387 in the previous period/year consolidated statement of profit or loss based on the results of the impairment assessment carried out immediately following the final purchase price allocation for the associate and the management has decided to net off this against the bargain purchase which is included within share of results as it is related.

Accordingly, the comparative financial information for the nine-month period ended 30 September 2025 presented in these interim condensed consolidated financial statements has been updated to reflect these measurement period adjustments, consistent with the amounts reported in the Group's audited consolidated financial statements for the year ended 31 December 2025. These adjustments arise from the finalization of the purchase price allocation within the measurement period permitted by IFRS 3. Further details of the measurement period adjustments are disclosed in the Group's consolidated financial statements for the year ended 31 December 2025.

22.2 Fair value measurement

Fair value represents the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Group measures financial instruments at fair value and measurement details are disclosed below. In the opinion of the Group's management, the carrying amounts of all other financial assets and liabilities which are carried at amortised costs are considered a reasonable approximation of their fair values.

22.3 Fair value hierarchy

Financial assets and financial liabilities measured at fair value in the interim condensed consolidated statement of financial position are grouped into three levels of a fair value hierarchy.

The three levels are defined based on the observability of significant inputs to the measurement, as follows:

- Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 fair value measurements are those derived from inputs other than quoted prices that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The level within which the financial asset or liability is classified is determined based on the lowest level of significant input to the fair value measurement.

The methods and valuation techniques used for the purpose of measuring fair value are unchanged compared to the previous reporting period.

Level 3 fair value measurement

The Group's financial assets classified in Level 3 uses valuation techniques based on significant inputs that are not based on observable market data. The financial instruments within this level can be reconciled from beginning to ending balances as follows:

	30 Sept. 2026 (Unaudited) KD	31 Dec. 2025 (Audited) KD	30 Sept. 2025 (Unaudited) KD
Opening balance	**56,974,033**	71,379,899	71,379,899
Additions	**2,358,698**	2,827,741	2,531,639
Disposals/transfers	**(888,788)**	(17,634,670)	(20,134,231)
Change in fair value	**2,198,600**	401,063	1,445,651
Closing balance	**60,642,543**	56,974,033	55,222,958

Changing inputs to the level 3 valuations to reasonably possible alternative assumptions would not change significantly amounts recognized in the interim condensed consolidated statement of profit or loss and other comprehensive income, total assets, total liabilities or total equity.

25 Geopolitical developments

During the period ended 30 September 2026, ongoing geopolitical developments in the Middle East have contributed to heightened uncertainty and volatility in global and regional financial markets. Some of the potential impacts include, but not limited to, supply chain disruptions, higher energy costs, margin pressures, and heightened refinancing and credit risk.

In preparing this interim condensed consolidated financial information in accordance with IAS 34 Interim Financial Reporting, management has assessed the potential impact of these developments on the Group's financial position, financial performance and cash flows. This assessment included consideration of the Group's exposure to credit and liquidity risks, the valuation of financial and non-financial assets, and its ability to continue as a going concern.

Based on the information available at the reporting date, management has not identified any significant deterioration in the credit quality of the Group's financial assets. The Group's liquidity position continues to be closely monitored through regular cash flow assessments. Management has also considered the potential impact of ongoing economic volatility and geopolitical developments on the fair values and carrying amounts of its financial and non-financial assets. Based on information available at the reporting date, management considers the reported amounts to appropriately reflect its assessment of fair values using observable market information and assumptions prevailing at that date. Nevertheless, financial markets remain volatile and the carrying values of certain assets may be sensitive to future market fluctuations.

Management has also assessed the impact of the current situation on the Group's ability to continue as a going concern and concluded that it remains appropriate to prepare the interim condensed consolidated financial information on a going concern basis.

Given the evolving nature of the situation, the management continues to monitor developments and assess their potential impact on the Group's financial position, financial performance and cash flows.
