REPORT ON REVIEW OF INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS TO THE SHAREHOLDERS OF SPINNEYS 1961 HOLDING PLC

Introduction

We have reviewed the accompanying interim condensed consolidated financial statements of Spinneys 1961 Holding PLC (the "Company") and its subsidiaries (collectively referred to as the "Group") which comprise the interim condensed consolidated statement of financial position as at 30 September 2026, and the related interim condensed consolidated statement of profit or loss and interim condensed consolidated statement of comprehensive income for the three-month and nine-month periods then ended, and the interim condensed consolidated statement of changes in equity and interim condensed consolidated statement of cash flows for the nine-month period then ended and explanatory notes. Management is responsible for the preparation and presentation of these interim condensed consolidated financial statements in accordance with International Accounting Standard 34, *Interim Financial Reporting* ("IAS 34"). Our responsibility is to express a conclusion on these interim condensed consolidated financial statements based on our review.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, *"Review of Interim Financial Information Performed by the Independent Auditor of the Entity"*. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial statements are not prepared, in all material respects, in accordance with IAS 34.

1 ACTIVITIES

Spinneys 1961 Holding PLC (the "Company") was incorporated on 21 November 2023 as a private limited company under the Companies Law, DIFC Law No. 5 of 2018 and was re-registered to a public company limited by shares on 29 March 2024. The registered address is Unit 813B, Level 8, Liberty House, DIFC, Dubai, United Arab Emirates.

The Company is a subsidiary of Al Seer Group (L.L.C.) (the "Parent") which is registered in the Emirate of Dubai as a limited liability company. The Parent is a subsidiary of Albwardy Investment (L.L.C.) (the "Ultimate Parent Company"), a limited liability company registered in the Emirate of Dubai, United Arab Emirates. The Ultimate Parent Company is majority owned and controlled by Mr. Ali Saeed Juma Albwardy.

Pursuant to the special resolution of the sole shareholder dated 27 March 2024, Al Seer Group (L.L.C.) resolved to convert the Company from a private company limited by shares into a public company limited by shares. On 2 April 2024, the Security and Commodities Authority ("SCA") (UAE) approved the Company's application for the offering and issuance of 900 million shares representing 25% percent of the Company's authorised share capital. On 9 May 2024, the Company was admitted to be listed on the Dubai Financial Market ("DFM").

The Company and its subsidiaries (together referred to as "the Group") are principally engaged in the operation of supermarkets in United Arab Emirates, Sultanate of Oman and Kingdom of Saudi Arabia. Information on the Group's subsidiaries and associate is disclosed in note 17.

The interim condensed consolidated financial statements were authorised for issue on 12 November 2026 by the Board of Directors.

2 BASIS OF PREPARATION

The interim condensed consolidated financial statements for the nine-month period ended 30 September 2026 have been prepared in accordance with IAS 34 "*Interim Financial Reporting*".

The interim condensed consolidated financial statements do not include all the information and disclosures required in the annual consolidated financial statements and should be read in conjunction with the Group's annual consolidated financial statements as at and for the year ended 31 December 2025.

The preparation of interim condensed consolidated financial statements in conformity with IFRS Accounting Standards ("IFRS") requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Group's accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the Group's interim condensed consolidated financial statements are largely consistent with the annual consolidated financial statements for the year ended 31 December 2025 and should be read in conjunction thereof.

The Group's business is subject to moderate seasonal fluctuations, which is affected by the holy month of Ramadan, summer holidays and festive season. As a result of moderate seasonal fluctuations, results for any quarter are not necessarily indicative of the results that may be achieved for any quarter or for the full fiscal year.

These interim condensed consolidated financial statements have been presented on the historical cost basis, except for forward foreign exchange contracts that have been measured at fair value.

The Group's management have made an assessment of the Group's ability to continue as a going concern and are satisfied that the Group has the financial resources to continue in business for the foreseeable future. Further, Group's management and Board of Directors are not aware of any material uncertainty that may cast significant doubt upon the Group's ability to continue as a going concern. Therefore, the interim condensed consolidated financial statements continue to be prepared on a going concern basis.

The interim condensed consolidated financial statements are presented in the United Arab Emirates Dirham (AED), which is the Company's functional currency. All values are rounded to the nearest thousand (AED'000), except when otherwise indicated.

3 ACCOUNTING POLICIES

3.1 New standards, interpretations and amendments, adopted by the Group

The accounting policies adopted in the preparation of the interim condensed consolidated financial statements are consistent with those followed in the preparation of the Group's consolidated financial statements for the year ended 31 December 2025, except for the adoption of the accounting policy on investment in an associate (refer note 3.2) and new standards effective as of 1 January 2026 which had no significant impact on the interim condensed consolidated financial statements of the Group.

The Group has not early adopted any standard, interpretation or amendment that has been issued as at the date of the authorisation of these interim condensed consolidated financial statements but is not yet effective. Management has assessed the implication of adopting the new standards which are not yet effective and concluded that there is no significant impact on the interim condensed consolidated financial statements of the Group.

3.2 Accounting policy on investment in an associate

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but is not control or joint control over those policies.

The considerations made in determining significant influence are similar to those necessary to determine control over subsidiaries. The Group's investment in its associate is accounted for using the equity method.

The aggregate of the Group's share of profit or loss of an associate is shown on the face of the interim condensed consolidated statement of profit or loss outside operating profit and represents profit or loss after tax and non-controlling interests in the subsidiaries of the associate.

Under the equity method, the investment in an associate is initially recognised at cost. The carrying amount of the investment is adjusted to recognise changes in the Group's share of net assets of the associate since the acquisition date. Goodwill relating to the associate is included in the carrying amount of the investment and is not tested for impairment separately. Thus, reversals of impairments may effectively include reversal of goodwill impairments. Impairments and reversals are presented within 'Share of profit or loss of an associate' in the interim condensed consolidated statement of profit or loss.

The interim condensed consolidated statement of profit or loss reflects the Group's share of the results of operations of the associate. Any change in OCI of those investees is presented as part of the Group's OCI. In addition, when there has been a change recognised directly in the equity of the associate, the Group recognises its share of any changes, when applicable, in the interim condensed consolidated statement of changes in equity. Unrealised gains and losses resulting from transactions between the Group and the associate are eliminated to the extent of the interest in the associate.

The financial statements of the associate are prepared for the same reporting period as the Group. When necessary, adjustments are made to bring the accounting policies in line with those of the Group.

After application of the equity method, the Group determines whether it is necessary to recognise an impairment loss on its investment in its associate. At each reporting date, the Group determines whether there is objective evidence that the investment in the associate is impaired. If there is such evidence, the Group calculates the amount of impairment as the difference between the recoverable amount of the associate and its carrying value, and then recognises the loss within 'Share of profit or loss of an associate' in the interim condensed consolidated statement of profit or loss.

Upon loss of significant influence over the associate, the Group measures and recognises any retained investment at its fair value. Any difference between the carrying amount of the associate upon loss of significant influence and the fair value of the retained investment and proceeds from disposal is recognised in interim condensed consolidated statement of profit or loss.

4 SEGMENT INFORMATION

The Group is organised into operating segments based on geographical locations. The revenue, profit/(loss), assets and liabilities are reported on a geographical basis and measured in accordance with the same accounting basis used for the preparation of the interim condensed consolidated financial statements. There are three main reportable segments: United Arab Emirates (UAE), Sultanate of Oman (Oman) and Kingdom of Saudi Arabia (KSA). Others include sourcing offices (United Kingdom, United States of America and Australia) and State of Kuwait.

Following is the segment information which is consistent with the internal reporting presented to chief operating decision maker for the period ended. Comparative information has been updated to conform to the current period presentation:

d. Pillar Two rules

The Group is in the scope of the Pillar Two Global Anti-Base Erosion Rules (GloBE rules or Pillar Two rules) issued by the Organization for Economic Co-operation and Development (OECD) as the annual consolidated revenue of the Ultimate Parent Company exceeds Euro 750 million threshold. These rules provide a coordinated system to ensure that multinational enterprises (MNEs) with revenue above Euro 750 million pay at least an effective tax rate of 15% in each of the jurisdiction in which they operate. The UAE (the location of the Ultimate Parent Company and the Group's largest market) has introduced a Domestic Minimum Top-up Tax ("DMTT") under Cabinet Decision No. 142 of 2024, which is closely aligned with the OECD GloBE Model Rules. The DMTT applies to multinational enterprise groups with annual global revenues of EUR 750 million or more in at least two of the four financial years immediately preceding the relevant financial year and is effective for financial years commencing on or after 1 January 2025.

7 INCOME TAX (continued)

d. Pillar Two rules (continued)

The Global minimum top-up tax relates to the Group's operation in United Arab Emirates, where the statutory tax rate is 9%. Based on the communication received from the Ultimate Parent Company, the Group has recognised top-up tax expense of AED 11,194 thousand (30 September 2025 (Unaudited): AED 15,723 thousand). The computation of the tax is based on the currently available information as of the reporting date which will be reviewed on a regular basis. The actual top-up tax expense that will be paid to the Ultimate Parent Company may be different than the currently estimated provisional amount. The other jurisdictions in which the Group has presence and the rules are in force, the effective tax rate exceeds 15%. The Group will continue to monitor the Pillar Two related developments in all relevant jurisdictions and assess any potential top-up tax in accordance with the relevant legislation after taking into consideration the Transitional CbC Safe Harbour relief.

On 23 May 2023, the International Accounting Standards Board (IASB) issued amendments to IAS 12 'Income taxes' introducing a mandatory temporary exception to the requirements of IAS 12 under which an entity does not recognise or disclose information about deferred tax assets and liabilities related to the Pillar Two rules. In line with IAS 12 (as amended), the Group has applied the exception with regards to the above.

As at 30 September 2026 (Unaudited), income tax payable amounts to AED 61,116 thousand (2025 (Audited): AED 60,898 thousand), which includes top-up tax of AED 34,696 thousand (2025 (Audited): AED 23,502 thousand).

9 LEASES (continued)

The Group as a lessee (continued)
The Group has several lease contracts that include extension and termination options. These options are negotiated by management to provide flexibility in managing the leased-asset portfolio and align with the Group's business needs. Management exercises significant judgment in determining whether these extension and termination options are reasonably certain to be exercised.

Group as a lessor
The Group has entered into operating leases on its owned assets or leased assets. These leases have terms of between 1 to 5 years. All leases include a clause to enable upward revision of the rental charge on an annual basis according to prevailing market conditions. Rental income recognised by the Group during the nine-month period ended 30 September 2026 (Unaudited) is AED 41,177 thousand (30 September 2025 (Unaudited): AED 42,109 thousand).

15 FINANCIAL INSTRUMENTS

Financial instruments comprise financial assets, financial liabilities and derivative instruments.

Financial assets consist of bank and short-term deposits, trade and other receivables, advance to the Liquidity Provider, refundable security deposits to landlords and amounts due from related parties. Financial liabilities consist of interest-bearing loans and borrowings, lease liabilities, trade and other payables, accrued expenses, refundable security deposits from tenants and amounts due to related parties. Derivative instruments consist of forward foreign exchange contracts and are included in other payables amounting to AED 2,356 thousand as at 30 September 2026 (Unaudited) and in other receivables amounting to AED 1,511 thousand as at 31 December 2025 (Audited).

The fair value of financial assets and liabilities approximate their carrying values at the end of the reporting period.

The fair value of derivatives has been calculated by discounting the expected future cash flows at prevailing interest rates.

Fair value hierarchy
The Group uses the following hierarchy for determining and disclosing the fair value of assets and liability by valuation technique:

Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

16 EARNING PER SHARE

Basic earnings per share is calculated by dividing profit for the period attributable to the shareholders by weighted average number of shares outstanding during the period.

Diluted earnings per share amounts are calculated by dividing the profit attributable to ordinary equity holders of the Company (adjusted for the effect of dilution, if any) by the weighted average number of ordinary shares outstanding during the period plus the weighted average number of ordinary shares that would be issued on conversion of all the dilutive potential ordinary shares into ordinary shares. As at 30 September 2026 (Unaudited) and 30 September 2025 (Unaudited), there were no shares which were dilutive in nature.

16 EARNING PER SHARE (continued)

The information necessary to calculate basic and diluted earnings per share is as follows:

	Three-month period ended 30 September		***Nine-month period ended 30 September***	
	2026 AED (Unaudited)	*2025 AED (Unaudited)*	***2026 AED (Unaudited)***	*2025 AED (Unaudited)*
Profit for the period attributable to equity holders of the company (AED'000)	**52,859**	43,250	**235,070**	217,563

19 IMPACT OF THE CURRENT GEOPOLITICAL SITUATION

The ongoing geopolitical situation in the Middle East has resulted in heightened disruption and uncertainty, with broader macroeconomic implications including volatility in demand, supply-chain disruptions and inflationary pressures affecting the local and regional economies in which the Group operates.

These developments have led to increased freight costs, extended transit times and heightened logistical uncertainties, which have impacted the Group's operations. In addition, the current environment has affected the customer footfall, and consequently, retail revenue, partly due to the adverse effects on tourism activities and the increased prevalence of remote working and learning arrangements during certain periods. Management has assessed and considered the potential financial impact of these events on the Group's operations, including the valuation of inventory, impairment of non-current assets, going concern assessment and any provisions required for delayed or disrupted shipments. Based on this assessment, management has updated the relevant estimates and judgments and reflected any resulting provisions and adjustments in the interim condensed consolidated financial statements.

The Group continues to monitor the evolving geopolitical developments in the region, including disruptions to global trade routes and supply chains arising from tensions affecting key shipping corridors. Management remains focused on actively managing these risks and taking appropriate actions to mitigate potential impacts and safeguard the Group's operations.

20 EVENTS AFTER THE REPORTING DATE

There were no significant events subsequent to the period-end that require either adjustments or disclosures in the interim condensed consolidated financial statements.

21 COMPARATIVE INFORMATION

Certain comparative figures in disclosure notes have been reclassified to conform to the presentation adopted in these interim condensed consolidated financial statements. Such reclassifications do not affect the previously reported profit or equity.
