Revenue increased 239% YoY, above our estimates

MIS reported 3Q26 revenue of SAR 952mn (+239% YoY and +60% QoQ), above our estimates. Strong growth was driven mainly by execution of data center projects, alongside continued growth in its core ICT business. Sequentially, revenue rose on the same drivers. For 9M26, revenue rose 88% YoY to SAR 1,862mn.

Net profit declined 17% YoY, below our estimates

The company reported 3Q26 net profit of SAR 21mn (-17% YoY and -52% QoQ), below our estimates. Operating profit rose 65% YoY to SAR 64mn, despite a SAR 35.7mn rise in operating expenses driven by SAR 28.4mn of ECL provisions and higher marketing costs. However, earnings were hit by a SAR 10.5mn fair value loss on investments and a SAR 14.1mn rise in finance costs linked to data center projects. For 9M26, net profit fell 16% YoY to SAR 76mn.

U-Capital view

We expect MIS's growth momentum to continue, driven by the execution of large data center projects and steady growth in its core ICT business. As finance costs and ECL provisions normalize, earnings should catch up with the strong top-line growth. We maintain a Buy rating on the stock with a target price of SAR 282.85/share.
