Independent auditor's report on review of condensed interim financial statements

To the shareholders of Arabian Company for Agricultural and Industrial Investment (a Saudi Joint Stock Company)

Introduction

We have reviewed the accompanying 30 September 2026 condensed interim financial statements of **Arabian Company for Agricultural and Industrial Investment** ("the Company") which comprises:

- the condensed statement of financial position as at 30 September 2026;
- the condensed statement of profit or loss for the three-month and nine-month periods ended 30 September 2026;
- the condensed statement of comprehensive income for the three-month and nine-month periods ended 30 September 2026;
- the condensed statement of changes in equity for the nine-month period ended 30 September 2026;
- the condensed statement of cash flows for the nine-month period ended 30 September 2026; and
- the notes to the condensed interim financial statements.

Management is responsible for the preparation and presentation of these condensed interim financial statements in accordance with IAS 34, 'Interim Financial Reporting' that is endorsed in the Kingdom of Saudi Arabia. Our responsibility is to express a conclusion on these condensed interim financial statements based on our review.

Scope of Review

We conducted our review in accordance with the International Standard on Review Engagements 2410, 'Review of Interim Financial Information Performed by the Independent Auditor of the Entity' that is endorsed in the Kingdom of Saudi Arabia. A review of condensed interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing that are endorsed in the Kingdom of Saudi Arabia, and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

KPMG Professional Services Company, a professional closed joint stock company registered in the Kingdom of Saudi Arabia with a paid-up capital of SAR110,000,000 and a non-partner member firm of the KPMG global organization of independent member firms affiliated with KPMG International Limited, a private English company limited by guarantee. 1. CORPORATE INFORMATION

Arabian Company for Agricultural and Industrial Investment ("ACAII", or "the Company") is a Saudi Joint Stock Company incorporated in the Kingdom of Saudi Arabia under commercial registration numbered 1010318944 dated 24 Thul-Qi'dah 1432H (corresponding to 22 October 2011) and Unified Identification number 7013115642.

The Company is a subsidiary of Arabian Agricultural Services Company ("ARASCO") or (the "Parent Company").

On 11 Thul Qi'dah 1445H (corresponding to 19 May 2024), the General Assembly of Shareholders decided to proceed for an Initial Public Offering ("IPO) and listing of 30% of its ordinary shares on Saudi Stock Exchange ("Tadawul"), which was approved by Capital Market Authority ("CMA") on 27 Rabi Al-Awwal 1446H (corresponding to 30 September 2024). The allocation of shares to new shareholders was completed and the Company's ordinary shares began trading on Saudi Stock Exchange ("Tadawul") on 17 Ramadan 1446H (corresponding to 17 March 2025).

The Company's licensed activities include preparation and processing of egg products for wholesale, dairy products for wholesale, eggs and their products for wholesale, wholesale of frozen meat and poultry, cultivation of grains including wheat, barley, yellow and white corn, cultivation of fiber crops including cotton, jute, flax, etc., cultivation of fodder such as clover and others for animal feed, cattle farming, camel and livestock farming, wholesale egg production, broiler chicken production, animal production support activities, production of chilled and frozen meat, preservation and processing of meat and its products through various methods such as drying and canning, egg product manufacturing, and land transport of goods.

The Company's national address is Building no. 3927, Al Amir Sultan Ibn Abdul Aziz Road, Al Olaya District, Unit no. 97, Riyadh 12311 – 7380, Kingdom of Saudi Arabia.

The Company operates through its Head Office in Riyadh and two branches in Kingdom of Saudi Arabia as below:

City	Date	Commercial Registration Number
Riyadh	20 Jumada Al-Akhirah 1415H (corresponding to 24 November 1994)	1010130873
Riyadh	10 Rajab 1424H (corresponding to 7 September 2003)	1010189677

2. BASIS OF PREPARATION

2.1 Statement of Compliance

These Interim Condensed Financial Statements have been prepared in accordance with International Accounting Standard IAS 34 'Interim Financial Reporting' that is endorsed in the Kingdom of Saudi Arabia and other standards and pronouncements that are issued by Saudi Organization for Chartered and Professional Accountants ("SOCPA").

These Interim Condensed Financial Statements do not include all the information and disclosures required in the Annual Financial Statements and should be read in conjunction with the Annual Financial Statements for the year ended 31 December 2025. IAS 34 states that the Interim Condensed Financial Statements are intended to provide an update on the latest complete set of Annual Financial Statements.

2. BASIS OF PREPARATION (CONTINUED)

2.1 Statement of Compliance (continued)

Hence, IAS 34 requires less disclosure in Interim Condensed Financial Statements than IFRS requires in Annual Financial Statements.

As at 30 September 2026, Company's current liabilities exceeds its current assets by SAR 276.19 million (out of which SAR 178 million due to Parent Company), and the Company incurred a loss of SAR 57.5 million for the nine-month period then ended. In addition, the accumulated loss is SAR 45.1 million as at 30 September 2026.

Management believes that the Parent Company's commitment to providing the necessary financial support will enable the Company to meet its obligations as they fall due and continue as a going concern for the foreseeable future. The Parent Company maintains a strong financial position, demonstrating its financial capacity to provide the necessary support to the Company.

In addition to the above, the Company has unutilized committed credit facilities amounting to SAR 361.9 million, which provide additional liquidity support. Management expects to repay any amount drawn under these facilities through cash flow generated from operating activities.

Management also intends to transfer the statutory reserve to retained earnings. However, the necessary procedures and approvals are still in progress.

Based on these factors, management has a reasonable expectation that the Company has and will have adequate resources to continue in operational existence for the foreseeable future. Therefore, the Company's management concluded that there are no events or conditions that may cast significant doubt on its ability to continue as a going concern

2.2 Preparation of the Interim Condensed Financial Statements

These Interim Condensed Financial Statements have been prepared on the historical cost basis except for the following material item in the Interim Condensed Statement of Financial Position:

- Biological assets are measured at fair value less costs to sell, except when fair value cannot be measured reliably. In such cases, biological assets are measured at historical cost less accumulated depreciation and accumulated impairment losses.

- The employees' defined benefit liabilities is recognized at the present value of future obligations using the Projected Unit Credit Method.

2.3 Use of Judgments and Estimates

In preparing these Interim Condensed Financial Statements, management has made judgments and estimates that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates.

The significant judgments made by management in applying the Company's accounting policies and the key sources of estimation uncertainty were the same as those described in the last Annual Financial Statements.

2.4 Functional And Presentation Currency

These Interim Condensed Financial Statements are presented in Saudi Riyals which is the Company's functional and presentation currency.

3. MATERIAL ACCOUNTING POLICIES

The accounting policies adopted in preparation of these Interim Condensed Financial Statements are consistent with those followed in the preparation of the Company's Financial Statements for the year ended 31 December 2025. These Interim Condensed Financial Statements should be read in conjunction with the Company's Annual Financial Statements as at 31 December 2025.

Accounting policies adopted in preparation of these Interim Condensed Financial Statements are described in note 3 of the Company's Financial Statements for the year ended 31 December 2025.

New Standards, Amendment to Standards and Interpretations

Overview

IFRS 18, Presentation and Disclosure in Financial Statements, will replace IAS 1, Presentation of Financial Statements, and is effective for annual reporting periods beginning on or after 1 January 2027. The Company has not early adopted the new accounting standard in preparing these interim condensed financial statements; however, early application is permitted. The Company is in the process of assessing the estimated impact that the initial application of IFRS 18 will have on its financial statements.
The expected impacts in the period of initial application are described below:

A. Structure of the Statement of Profit or Loss

IFRS 18 requires entities to classify all income and expenses into the following categories in the statement of profit or loss namely, operating, investing, financing, income tax and zakat and discontinued operations. The classification of income and expenses depends on the main business activities of the entity. The Company has determined that it does not have a specified main business activity involving investing in assets and/or providing financing to customers.

The adoption of IFRS 18 will not affect the Company's net profit or net assets. However, the Company will be required to present two new subtotals: "operating profit" and "profit or loss before financing and income taxes and zakat." The operating profit subtotal will differ from the operating profit subtotal currently presented by the Company.

Based on the information currently available, the Company expects that the current structure of the statement of profit or loss will change as a result of the following:

- Interest income and expenses are generally classified as finance income and finance costs in accordance with the Company's current accounting policy and are presented within "finance costs" in the statement of profit or loss. IFRS 18 provides specific guidance regarding income and expenses classified within the investing and financing categories.

- Interest costs relating to employee benefit obligations, which are currently presented within employee costs, will be classified and presented within finance costs.

- Foreign exchange losses are currently included within operating income and expenses. Under IFRS 18, foreign exchange differences are required to be presented in the same category as the income and expenses arising from the items that gave rise to those differences. The Company has determined that it has foreign exchange differences that will be classified within the operating category. For example, foreign exchange differences relating to trade payables and trade receivables will be classified within the operating category.

3. MATERIAL ACCOUNTING POLICIES (CONTINUED)
New Standards, Amendment to Standards and Interpretations (continued)

B. Management-defined performance measures

Management-defined performance measures (MPMs) are subtotals of income and expenses used in public communications outside the financial statements that communicate to users management's view of an aspect of the financial performance of the entity as a whole. The Company will be required to disclose specific information about MPMs in a single note in the financial statements.

The Company has developed a process to determine public communications relevant when identifying MPMs. MPMs relate to the same reporting period as the financial statements. Therefore, MPMs disclosed by the Company following adoption of IFRS 18 will be determined based on public communications issued by the Company relating to the 2027 reporting period.

C. Principles of aggregation and disaggregation

IFRS 18 provides enhanced principles on how to group information in the financial statements (i.e. the primary financial statements and the notes). It also introduces guidance on labelling and describing items presented in the primary financial statements or disclosed in the notes.

The Company is assessing the grouping of items on the basis of similar and dissimilar characteristics. Based on this assessment, it will present line items in the primary financial statements that provide useful structured summaries and disclose additional material information in the notes. The Company is also assessing line items currently labelled as "other" and will use more informative labels.

D. Consequential amendments

IFRS 18 introduces consequential amendments to IAS 7, which require entities to use the newly defined operating profit subtotal as the starting point for the statement of cash flows when presenting operating cash flows under the indirect method. The Company currently uses "profit or loss before zakat" as the starting point of the reconciliation to cash flows from operating activities. Certain adjusting items included in the reconciliation will change as a result of the new starting point. The consequential amendments also provide specific guidance on the classification of interest and dividend cash flows. The Company will classify cash flows from interest paid as financing activities rather than operating activities under this guidance. Cash flows from interest and dividends received and from dividends paid will continue to be classified as investing activities and financing activities, respectively.

4. SEGMENT INFORMATION

The Company operates principally in a single business segment for food business which includes distribution of fresh and frozen chicken, table eggs and processed poultry and poultry related products. This is in line with the operating segment that is regularly reported to Chief Executive Officer (“CEO”), who is the Chief Operating Decision Maker (“CODM”). This is also the measure reported to the Company’s Board of Directors for the purpose of making decisions about resource allocation and performance assessment. The operations of the Company are mainly in the Kingdom of Saudi Arabia with some export sales to GCC and other countries. For management reporting purposes, the Company is organized into a single business unit of poultry and related products which is identified as a reportable segment. All assets and liabilities are tagged to the same reportable segment.
