REPORT ON REVIEW OF INTERIM CONDENSED CONSOLIDATED FINANCIAL INFORMATION TO THE BOARD OF DIRECTORS OF BURGAN BANK K.P.S.C.

Introduction

We have reviewed the accompanying interim condensed consolidated statement of financial position of Burgan Bank K.P.S.C. ("the Bank") and its subsidiaries (collectively, "the Group") as at 30 September 2026, and the related interim condensed consolidated statement of income and the interim condensed consolidated statement of comprehensive income for the three-month and nine-month periods then ended, the interim condensed consolidated statement of changes in equity and the interim condensed consolidated statement of cash flows for the nine-month period then ended. Management of the Bank is responsible for the preparation and presentation of this interim condensed consolidated financial information in accordance with the basis of preparation set out in Note 2. Our responsibility is to express a conclusion on this interim condensed consolidated financial information based on our review.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, *Review of Interim Financial Information Performed by the Independent Auditor of the Entity*. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial information is not prepared, in all material respects, in accordance with the basis of preparation set out in Note 2.

Report on Other Legal and Regulatory Requirements

Furthermore, based on our review, the interim condensed consolidated financial information is in agreement with the books of account of the Bank. We further report that, to the best of our knowledge and belief, we have not been made aware of any violations of the Companies Law No. 1 of 2016, as amended, its executive regulations, as amended, or of the Bank's Articles of Association and Memorandum of Incorporation, as amended, during the nine-month period ended 30 September 2026 that might have had a material effect on the business of the Bank or on its financial position.

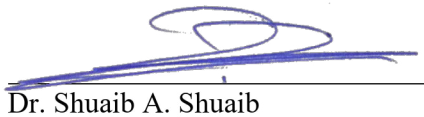

REPORT ON REVIEW OF INTERIM CONDENSED CONSOLIDATED FINANCIAL INFORMATION TO THE BOARD OF DIRECTORS OF BURGAN BANK K.P.S.C. (continued)

Report on Other Legal and Regulatory Requirements (continued)

We further report that, during the course of our review, to the best of our knowledge and belief, we have not become aware of any violations of the provisions of Law No. 32 of 1968, as amended, concerning currency, the Central Bank of Kuwait and the organization of banking business, and its related regulations during the nine-month period ended 30 September 2026 that might have had a material effect on the business of the Bank or on its consolidated financial position.

The accompanying notes 1 to 14 form an integral part of this interim condensed consolidated financial information.

1. INCORPORATION AND PRINCIPAL ACTIVITIES

Burgan Bank K.P.S.C. (the "Bank") is a public shareholding company incorporated in the State of Kuwait by Amiri Decree dated 27 December 1975 listed on Boursa Kuwait and is registered as a bank with the Central Bank of Kuwait ("CBK"). The Bank's registered address is P.O. Box 5389, Safat 12170, State of Kuwait.

The interim condensed consolidated financial information of the Bank and its subsidiaries (collectively "Group") for the period ended 30 September 2026 was authorised for issue in accordance with a resolution of the Board of Directors on 12 October 2026.

The principal activities of the Group are explained in note 9.

The Bank is a subsidiary of Kuwait Projects Company Holding K.S.C.P. (the "Parent Company"), whose shares are listed on Boursa Kuwait.

2. BASIS OF PREPARATION AND CHANGES TO ACCOUNTING POLICIES

2.1 Basis of preparation

The interim condensed consolidated financial information of the Group has been prepared in accordance with International Accounting Standard ("IAS") 34, *Interim Financial Reporting,* except as noted below.

The interim condensed consolidated financial information has been prepared in accordance with the regulations for financial services institutions as issued by the CBK in the State of Kuwait. These regulations, require banks and other financial institutions regulated by the CBK to adopt the International Financial Reporting Standards ("IFRS"), as issued by the International Accounting Standards Board ("IASB"), except for expected credit loss ("ECL") to be measured at the higher of ECL provision on credit facilities computed under IFRS 9 in accordance with the CBK guidelines or the provisions as required by the CBK instructions along with its consequent impact on related disclosures.

The above framework is hereinafter referred to as 'IFRS as adopted by the CBK for use by the State of Kuwait'.

The interim condensed consolidated financial information does not contain all information and disclosures required for full financial statements prepared in accordance with IFRS and should be read in conjunction with the Group's consolidated financial statements for the year ended 31 December 2025.

The significant judgement made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those described in the last annual financial statements.

Further, results for the nine months period ended 30 September 2026 are not necessarily indicative of the results that may be expected for the financial year ending 31 December 2026.

2.2. Accounting policies adopted in the preparation of the interim condensed consolidated financial information

The accounting policies used in the preparation of the interim condensed consolidated financial information are consistent with those used in the previous financial year, except for:

Amendments to IFRS which are effective for annual accounting period starting from 1 January 2026 are listed below. However, they did not have any material impact on the accounting policies, financial position or performance of the Group.

- ***Classification and Measurement of Financial Instruments:*** **Amendment to IFRS 9 and IFRS 7**
  In May 2024, the IASB issued Amendments to IFRS 9 and IFRS 7, Amendments to the Classification and Measurement of Financial Instruments (the Amendments). The Amendments include (i) Clarifications of the requirements for recognition and derecognition of financial assets and financial liabilities', (ii) 'Additional guidance on how the contractual cash flows for financial assets with environmental, social and corporate governance (ESG) and similar features should be assessed' and (iii) 'Clarifications on what constitute 'non recourse features' and what are the characteristics of contractually linked instruments". The amendments had no impact on the Group's interim condensed consolidated financial information.

2. BASIS OF PREPARATION AND CHANGES TO ACCOUNTING POLICIES (continued)

2.3 HYPERINFLATION

The Bank, through its subsidiary Burgan Bank A.S. ("BBT"), has banking operations in Turkey. The Turkish economy has been assessed as a hyperinflationary economy based on the cumulative inflation rates over the previous three years, effective for reporting period on or after 30 April 2022. Accordingly, this interim condensed consolidated financial information include the effects of hyperinflation in accordance with IAS 29 *"Financial Reporting in Hyperinflationary Economies"* stemming from its Turkish operations. IAS 29 has been applied from 1 January 2022 i.e. the beginning of the reporting period in which hyperinflation has been identified.

The Group has determined the Consumer Price Index ("CPI") as the appropriate general price index to be used in the inflation accounting and it was measured at 4,367.69 as at 30 September 2026 (31 December 2025: 3,513.87 and 30 September 2025: 3,367.22). The inflation accounting was applied to the books of BBT from the date of acquisition i.e. December 2012.

f) Perpetual Tier 1 Capital Securities

On 9 May 2024, the Bank issued Perpetual Tier 1 Capital Securities (the "Tier 1 securities"), amounting to KD 150,000 thousand in two tranches composed of:

i) Fixed rate securities of KD 75,000 thousand with a coupon of 7.25% per annum for the first five years after the date of the issuance, and for the subsequent period, sum of the Reset rate plus 3.00% per annum, payable quarterly in arrears with interest payments starting three months from the issuance date of the securities, and

ii) Floating rate securities of KD 75,000 thousand with a floating rate coupon determined quarterly on the interest determination date of 3.25% over CBK discount rate per annum (provided, however, that the floating rate of interest shall never exceed the prevailing interest rate attributable to the fixed rate securities at the time plus 1% per annum) payable quarterly in arrears, with interest payment starting three months from the issuance date of securities.

The Tier 1 securities constitute direct, unconditional, subordinated and unsecured obligations of the Bank and are classified as equity in accordance with *IAS 32: Financial Instruments – Presentation.* The Tier 1 securities do not have a maturity date. They are redeemable by the Bank at its discretion after 9 May 2029 (the "First Call Date") or on any interest payment date thereafter subject to the prior consent of the regulatory authority.

The Bank at its sole discretion may elect not to distribute interest and this is not considered an event of default. If the Bank does not pay interest on the Tier 1 securities, on a scheduled interest payment date (for any reason), then the Bank must not make any other distribution or payment on or with respect to its other shares that rank equally with or junior to the Tier 1 securities (other than pro-rata distributions or payments on shares that rank equally with Tier 1 securities) unless and until it has paid two consecutive interest payments in full on the Tier 1 securities.

9. SEGMENT INFORMATION

For management purposes, the Group organises its operations by geographic territory in the first instance, primarily Domestic and International. All operations outside Kuwait are classified as International. Within its domestic operations, the Group is organised into the following business segments.

- **Corporate and Consumer banking:** provides comprehensive product and services to corporate and individual customers, including lending, deposits, trade services, foreign exchange, advisory services, credit and debit cards, and others.
- **Treasury, FI and Investment banking:** includes treasury activities, investment services and management, and banking with Financial Institutions (FI). It also provides products and services to banks/FIs including money markets, lending, deposits, foreign exchange and others.
- **Central office:** includes liquidity and funding management, any residual in respect of transfer pricing and other unallocated activities.

Executive Management monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on segment result after provisions which in certain respects are measured differently from operating profit or loss in the interim condensed consolidated financial information.

The table below presents income and results and certain assets and liabilities information regarding the Group's operating segments.

10. TRANSACTIONS WITH RELATED PARTIES

The Group has entered into transactions with certain related parties (Parent Company, associates, directors and key management personnel of the Group and their close family members and entities controlled, jointly controlled or significantly influenced by such parties) who were customers of the Group during the period. The "Others" column in the table below mainly represents transactions with other related parties that are either controlled or significantly influenced by the Parent Company. The terms of these transactions are substantially on the same commercial basis as those with unrelated parties, including collateral. Lending to Board members and their related parties is secured by tangible collateral in accordance with regulations of the Central Bank of Kuwait. 	1,383,193	1,388,466	1,337,283

Irrevocable commitments to extend credit amount to KD 724,810 thousand (31 December 2025: KD 805,523 thousand and 30 September 2025: KD 661,640 thousand). This includes commitments to extend credit which are irrevocable over the life of the facility or are revocable only in response to a material adverse change.

The primary purpose of these instruments is to ensure that funds are available to customers as required. Acceptances, standby letters of credit and guarantees, which represent irrevocable assurances that the Group will make payments in the event that the customer cannot meet its obligations to third parties, carry the same credit risk as loans. Documentary and commercial letters of credit, which are undertaken by the Group on behalf of the customer authorising a third party to draw drafts on the Group up to a stipulated amount under specific terms and conditions, are collateralised by the underlying shipments of goods to which they relate and therefore carry less risk than a direct borrowing.

11. COMMITMENTS AND CONTINGENT LIABILITIES (continued)

Undrawn lines of credit represent unused portions of authorisations to extend cash credit. With respect to credit risk on undrawn lines of credit, the Group is potentially exposed to loss in an amount equal to the total unused lines. However, the likely amount of loss is less than the total unused lines since most of these lines will expire or terminate without being funded.

The Group makes available to its customers guarantees which may require that the Group makes payments on their behalf and enters into commitments to extend credit lines to secure their liquidity needs. Such payments are collected from customers based on the terms of the letter of credit. They expose the Group to similar risks to loans and these are mitigated by the same control processes and policies.

The Group has commitments in respect of capital expenditure amounting to KD 23,891 thousand (31 December 2025: KD 25,552 thousand and 30 September 2025: KD 20,844 thousand).

12. DERIVATIVES FINANCIAL INSTRUMENTS

In the ordinary course of business, the Group enters into various types of transactions that involve derivative financial instruments. The Group offers its clients derivatives products that are traded in the financial markets in order to service their risk management needs to hedge currency and interest rate exposures. The Group also uses derivatives for economic hedging purpose to manage its own assets and liabilities as well as to hedge certain risk exposures such as variation in future cash flows attributable to a recognised asset or liability (cash flow hedge), or hedges of net investment in foreign operation. For those derivative contracts that are designated as a hedging instrument, hedge accounting is used provided certain criteria are met.

Derivatives are initially recognised and are subsequently measured at fair value. Fair values are obtained from quoted market prices in active markets, and valuation techniques (such as discounted cash flow models and option pricing models), as appropriate. All derivatives are carried as assets when their fair value is positive and as liabilities when fair values are negative.

The method of recognising the resulting fair value gain or loss depends on whether the derivative is designated as a hedging instrument and, if so, the nature of the item being hedged.

At the inception of the transactions the Group documents the relationship between the hedging instruments and the hedged items, its risk management objective, together with the methods selected to assess hedge effectiveness. The Group also documents its assessment both at hedge inception and on an ongoing basis, of whether the derivatives that are used in hedging transactions are highly effective in offsetting changes in cash flows of the hedged items.

Derivative instruments that are used by the Group as part of its risk management strategies, but which do not qualify for hedge accounting under the Group's hedge accounting policies, are presented as derivatives held for trading (non-qualifying hedges).

Derivatives held for hedging

Hedge of net investment in foreign operations

During the year 2024, the Bank has discontinued the hedge of net investment foreign operations. As the Group has not sold / liquidated the corresponding investment in the foreign operation, the cumulative amount of hedge reserve is not recycled to the interim condensed consolidated statement of income. A subsidiary of the Group has designated certain forward foreign exchange contracts to hedge against the changes in the value of its net investment in its foreign subsidiary based in Kuwait. Gains or losses on the retranslation of the aforesaid contracts are transferred to equity to offset any gains or losses on translation of the net investments in subsidiary.

No ineffectiveness from the hedges was recognised in the interim condensed consolidated statement of income during the period (30 September 2025: Nil)

12. DERIVATIVES FINANCIAL INSTRUMENTS (continued)

Cash flow hedges
One of the subsidiaries of the Group applies cash flow hedge accounting using interest rate swaps to hedge its foreign currency deposits with an average maturity up to 3 months against interest rate fluctuations. The subsidiary implements effectiveness tests at the reporting dates for hedge accounting; the effective portions are accounted as part of changes in fair value of derivatives under other reserves, whereas the ineffective portion is recognised in the interim condensed consolidated statement of income.

No ineffectiveness from hedges was recognised in the interim condensed consolidated statement of income during the period (30 September 2025: Nil).

Derivatives held for trading
Derivative contracts that are entered into for the purpose of servicing customers in their risk management needs as well as derivatives used by the Group for economic hedging purpose, but which do not meet the qualifying criteria for hedge accounting are classified as 'Derivatives held for trading'. The risk exposures on account of derivative contracts for customers are covered by entering positions with an opposite risk profile with other counter parties or by other risk mitigating transactions.

The positive fair value of derivative instruments as at 30 September 2026 is KD 40,209 thousand (31 December 2025: KD 24,226 thousand and 30 September 2025: KD 22,719 thousand) and the negative fair value is KD 40,138 thousand (31 December 2025: KD 28,198 thousand and 30 September 2025: KD 22,180 thousand), included in the carrying amount of other assets and other liabilities, respectively.

The table below shows the notional amounts of derivatives outstanding as of the reporting date. The notional amount of a derivatives' underlying asset, reference rate or index is the basis upon which changes in the value of derivatives are measured.

The notional amounts of derivatives are as follows:

13. FAIR VALUE MEASUREMENTS

Fair values of all financial instruments are not materially different from their carrying values. For financial assets and financial liabilities that are liquid or having a short-term maturity (less than three months), it is assumed that the carrying amounts approximate to their fair value. This assumption is also applied to demand deposits and savings accounts without a specific maturity.

The fair value of investment securities is categorised as per the policy on fair value measurement. Movement in Level 3 is mainly on account of purchase, sale and change in fair value and on account of investment security acquired against recovery of debt previously written off and change in fair value and reclassification under IFRS 9. During the period, a decrease of KD 2,173 thousand (30 September 2025: increase of KD 867 thousand) was recorded in the other comprehensive income representing change in fair value. There were no material transfers between the levels during the period.

Debt securities included under level 3 consists of unquoted corporate bonds. The fair values of these bonds are estimated using discounted cash flow method. Equities and other securities included in this category mainly include strategic equity investments and managed funds which are not traded in an active market. The fair values of these investments are estimated by using valuation techniques that are appropriate in the circumstances. Valuation techniques include discounted cash flow models, observable market information of comparable companies, recent transaction information and net asset value.

Significant unobservable inputs used in valuation techniques mainly include discount rate, terminal growth rate, revenue, profit estimates and market multiples such as price to book and price to earnings.

Other financial assets and liabilities are carried at amortised cost and their carrying values are not materially different from their fair values. Fair values of remaining financial assets and liabilities carried at amortised cost are estimated using valuation techniques incorporating certain assumptions such as future cashflows and credit spreads that are appropriate in the circumstances.

The impact on the interim condensed consolidated financial position or the interim condensed consolidated statement of income or the interim condensed consolidated statement of shareholders' equity would be immaterial if the relevant risk variables used for fair value estimations to fair value the unquoted securities were altered by 5%.

13. FAIR VALUE MEASUREMENTS (continued)

Investment securities classified as FVOCI, and amortised cost and other debt instruments carried at amortised cost (excluding credit facilities) are subject to expected credit losses. These financial assets are largely categorised under Stage 1 (31 December 2025: Stage 1 and 30 September 2025: Stage 1). Central Bank of Kuwait bonds and Kuwait Government treasury bonds are not subject to expected credit losses.

As of 30 September 2026, investments securities include debt securities amounting to KD 38,029 thousand (31 December 2025: nil and 30 September 2025: KD 49,798 thousand) provided as collateral under repurchase agreements.

Movement in level 3 is summarized as below:

14. GEOPOLITICAL UNCERTAINTY IN THE MIDDLE EAST REGION

Impact of Geopolitical escalation risk and related Uncertainty:

Geopolitical events in the Middle East that commenced in late February 2026 have affected GCC countries, resulting in regional disruptions such as airspace closures, flight cancellations, supply chain delays and heightened uncertainty. These developments continue to evolve and have created increased business and economic uncertainties.

To address the repercussion caused by the situation in the region, The Central Bank of Kuwait (CBK) through the notification dated 26 March 2026 provided a package of the stimulus measure to support the economic sectors and the banking system. Enabling the banking sector to continue to support the economic activity in the region by providing the necessary liquidity for the uninterrupted continuation of their activities and reduces the transformation of the short-term challenges related to liquidity shortages into the long-term risk affecting the solvency.

Expected Credit Loss (ECL) estimates

The Group considered the potential impact of the uncertainties caused by the ongoing geopolitical event together with the relief measures of central bank in its estimation of ECL requirements for the period ended 30 September 2026, adjusting the macro-economic variables as appropriate. The Group has also given specific consideration on the relevant quantitative and qualitative factors when determining any significant increase in credit risk (SICR) and in assessing indicators of impairment for exposures to potentially affected sectors.

Notwithstanding the above, ECL requirement for credit facilities estimated as at 30 September 2026 continues to be lower than the provisions required as per CBK instructions. In accordance with Group accounting policy, the higher amount, being the provision required as per CBK instructions, is therefore recognized as the provision requirement for credit losses on credit facilities.

Fair value measurement of financial and non-financial assets

The Group is constantly monitoring the current situation as it unfolds, noting that it is in early stages and there is limited economic data available to accurately evaluate the impact on the economy, and on the Group's financial position. The reported amounts best represent management's assessment of the fair values based on observable market information. Moreover, as the situation remain volatile, and asset carrying values remain sensitive to market fluctuations. The impact of the highly uncertain economic environment remains judgmental, and the Group will continue to reassess its position and the related impact on a regular basis.

Management continues to monitor the situation and assess potential impacts on the Group. As of the date of authorization of this interim condensed consolidated financial information, the financial effects cannot be reliably estimated due to the evolving nature of the events.
