About Acwa

Acwa (TADAWUL: 2082) is a Saudi-listed company and the world's largest private water desalination company, the first mover into green hydrogen, and a leader in the global energy transition. Registered and established in 2004 in Riyadh, Saudi Arabia, Acwa employs over 4,000 people and is currently present in 16 countries in the Middle East, Africa, Central Asia, and Southeast Asia. Acwa's portfolio comprises 112 projects in either operation, advanced development, or under construction, with assets under management (AUM) of SAR 478 billion (USD 127.6 billion), the capacity to generate 98.2 GW of power (of which 52.3 GW is renewables), battery energy storage system capacity of 11.6 GWh, and the capacity to manage 9.7 million m^3/day of desalinated water. The energy and water capacity generated by Acwa's assets is delivered on a bulk basis to address the needs of state utilities and industries on long-term, offtaker contracts under utility services outsourcing and public-private partnership models.
